NAVY ENLISTED

CLASSIFICATIONS

(NECs)

DEPARTMENT OF THE NAVY
BUREAU OF NAVAL PERSONNEL
WASHINGTON, D.C. 20370-5000

IN REPLY REFER TO

From: Director, Total Force Programming, Manpower and Information
Resource Management (N12)
To: All Ships and Stations (less Marine Corps field addressees not
having Navy personnel attached)

Subj: PROMULGATION OF VOLUME II (NAVY ENLISTED CLASSIFICATIONS) OF THE
MANUAL OF NAVY ENLISTED MANPOWER AND PERSONNEL CLASSIFICATIONS
AND OCCUPATIONAL STANDARDS, NAVPERS 18068F DATED JULY 2000

1. Volume II of NAVPERS 18068F is the official manual of Navy Enlisted Classifications (NECs) code identification for enlisted personnel and billets. This edition includes the latest information available at the time of revision.
2. The effectiveness of this manual in providing correct and timely identification of skilled personnel and requirements depends upon support from all command echelons. Command activities are encouraged to forward recommendations concerning NEC changes, establishment, or disestablishment.
3. Requests to have an activity added to the CD-ROM automatic distribution list should be addressed to the following:

Address

Commanding Officer
CD-ROM Team
NCTAMS LANT
9625 Moffett Ave
Norfolk, VA 23511-2784

and contain the following pertinent information:

Standard Navy Distribution List Number (SNDL)
UIC
Activity Name
Address
Activity Acronym
Attention Code
Phone Number and Point of Contact
Number of CDs required
Justification

Subj: PROMULGATION OF VOLUME II (NAVY ENLISTED CLASSIFICATIONS) OF THE
MANUAL OF NAVY ENLISTED MANPOWER AND PERSONNEL CLASSIFICATIONS
AND OCCUPATIONAL STANDARDS, NAVPERS 18068F DATED JULY 2000

4. The BUPERS CD-ROM will be distributed quarterly. The next
scheduled release is October 2000.

JOSEPH G. HENRY

SUMMARY OF CHANGES

The NEC manual is published quarterly (JAN, APR, JUL, OCT) to provide updated NEC information in a timely manner. Changes (additions, deletions, revisions) to NECs identified by code numbers listed below were made in this revision. Revised NECs are those for which a significant change was made (title change, description, course information, sequence code, source rating, component NEC, note). Revisions to the manual are shown using shaded print.

CHAPTER I

INTRODUCTION TO THE NAVY ENLISTED CLASSIFICATION SYSTEM

A. PURPOSE

1. The Navy Enlisted Classification (NEC) system, of which the NEC coding system is a part, supplements the enlisted rating structure in identifying personnel on active or inactive duty and billets in manpower authorizations. NEC codes identify a non-rating wide skill, knowledge, aptitude, or qualification that must be documented to identify both people and billets for management purposes.

2. The NEC coding system facilitates management control over enlisted skills by identifying billets and personnel and enhancing efficient use of personnel in distribution and detailing. In cases where NECs reflect special training, inventories of coded billets and coded personnel are also the basis for planning and controlling input of personnel into formal courses that earn NECs. Consequently, the continuing enlisted strength of the Navy, particularly petty officer allocations, and funds authorized for rating and specialty training depends, to an increasing extent, upon the accuracy, thoroughness, and timeliness of NEC coding. Personnel required to support ratings and special programs must be identified by the correct combinations of rates and/or NECs.

B. TYPES OF NECs

1. **Entry Series NECs** consist of Rating Conversion and Occupational Area - Defense Grouping (DG) NECs.

a. **Rating Conversion NECs** identify aptitudes and qualifications not discernible from rates alone and are assigned to identify petty officers or identified strikers who are in training for change of rating or status under approved programs.

b. **Occupational Area - Defense Groupings (DG) NECs** relate to groups of ratings for which there is an identification requirement. These NECs appear as DG-9700 through DG-9780, which reflect the location of Navy ratings in the Department of Defense Occupational Conversion Manual, Enlisted. The third digit in the codes specifies the DoD Occupational Area Grouping Code used in the DoD Occupational Conversion Manual. USN and USNR personnel in paygrades

E-1 through E-3 (not already "rating associated" by HM or DT apprenticeship rates or by striker identification) must be assigned an appropriate DG NEC that identifies and indicates that these individuals have received training, are in training, or have aptitude for training in the areas identified by the DG code.

2. **Rating Series NECs** relate to a limited number of specific ratings. Rating Series NECs identify special or unique billet requirements beyond the skill and knowledge that the general rating would provide. When assigned to an individual, Rating Series NECs show that the person has obtained certain skills or knowledge and is qualified for detailing to a billet requirement.

3. **Special Series NECs** have the same purpose as Rating Series NECs but in general, relate to an unlimited number of ratings.

4. **Alphanumeric NECs** are used to identify discrete skills and training levels when justified by the complexity of training and management requirements. Alphanumeric NECs require dedicated personnel support to monitor and manage because of the intricacies of coordinating resources and support systems. Therefore, recommendations for alphanumeric NECs are to be submitted only through Warfare or Resource Sponsors after a development process that completely addresses all the elements required to make the program successful. These elements include:

a. Development of a training structure, in cooperation with appropriate training program coordinators.

b. A definite plan or program for tracking the inventory or requirements and personnel assets.

c. A commitment from the Warfare or Resource Sponsor to provide dedicated support personnel to management and monitoring of the program. Decisions on the feasibility of expanding use of alphanumeric NECs will be based on experience gained from the submarine community alphanumeric NECs. Use of alphanumeric NECs is limited to submarine ET and RM ratings and rating conversion NECs. Use of alphanumeric coding may be opened to other ratings only when all numeric codes have been depleted.

5. **Numerical NECs** not included in Rating Series or Special Series are grouped under EOD/DIVER/SEAL, Nuclear, Aircrew or Aircraft Systems Maintenance.

6. **Planning NECs** are NECs approved for planning purposes only and are listed in Chapter V of this manual. These NECs may be used in conjunction with Navy Training Plans, in developing planned training courses, and other applicable long-range projects. Planning NECs listed in Chapter V may be written in manpower authorizations to project requirements and used for other planning purposes; however, they are not assigned to personnel.

Submit requests for planning NECs to Commanding Officer, Navy Manpower and Analysis Center (NAVMAC) (Code 12) via the chain of command. A request must include a proposed title, a ready-for-training date (actual or estimated), billet paygrades, and point of contact. Submit requests to convert approved Planning NECs to Rating or Special series NECs 180 days before the date the NEC is to be awarded (i.e., 180 days before completion of initial course or factory training). Appendix A identifies requirements for establishing new NECs.

C. NEC CODE RELATIONSHIPS

1. **Principal NECs** identify stand alone skills and may include skills or abilities identified by Component and/or Related NECs. To earn a Principal NEC that includes a Component NEC, an individual must either already be assigned the Component NEC(s) or be fully qualified for such assignment. When an individual earns a Principal NEC, the individual will not be coded with the Component NEC listed with the Principle NEC. Component NECs are removed from the Enlisted Master Record (EMR) when a principal NEC is awarded.

2. **Component NECs** are prerequisite qualifications for assignment of the Principal NEC. Chapter IV lists component NECs with the Principal NEC with which they are associated.

3. **Related NECs** identify qualifications generally similar to those of the Principal NEC but are not prerequisites for earning the Principal NEC. Chapter IV lists Related NECs with the Principal NEC with which they are associated and are shown for information purposes only.

4. NEC Sequencing

a. NAVMAC (Code 10) has approval authority regarding the assignment of Sequence codes for proposed NECs. NAVMAC ensures adherence with established guidelines and will coordinate any exceptions with the ECM.

b. Change of Sequence codes are handled as an NEC revision and staffed for concurrence from Primary Advisor, Technical Advisor and ECM.

c. The primary consideration used to make a recommendation to determine assignment of a Sequence code is NEC seniority. An Operator NEC will have a “lower” position than a maintainer NEC; a basic maintainer/technician NEC will have a “lower” position than an advanced maintainer/technician and so on.

d. Sequence codes (positions) will be determined using the following guidelines:

<u>Paygrade</u>	<u>Criteria</u>	<u>Position</u>
E1/2/3	Entry series or Conversion NECs only.	1 (1)
E7/8/9	Senior Enlisted management NECs (i.e., 1332, 4206, 8300, 9580).	2
E5/E6	Supervisor/Management, Advanced Technical and Operational/Fleet Critical NECs.	3
E3 to E8	Operator, Maintainer, Analyst NECs (Career) and Special Warfare, EOD/Diver/SEAL PNECs	4 (2)
E4/E5	Intermediate level Technical, Operator/maintainer NECs and Fleet critical E4 NECs (i.e., BM-0170 Surface Rescue Swimmer).	5
E3/4	First Tour/Initial NECs, Basic Operator, Organizational Maintenance.	6 (3)

<u>Paygrade</u>	<u>Criteria</u>	<u>Position</u>
Special Series NECs	Technical or Supervisor in nature. NECs that may be used again (i.e., Microminiature Repair, Instructor, Safety). Non-Technical single-use NECs (i.e., Recruit Instructor, Correctional Counselor) and personnel as	7

candidates or under training (i.e., 5301, 8201, 9901). 8

Notes: Sequence Codes are determined by considering both Paygrade and Criteria to assign position (number).

1. Position 1 is reserved for Defense Grouping (DG) and Conversion NECs only. Defense Grouping NECs apply to non-designated E1/2/3 personnel who have attended some type of rate group (i.e., Seaman, Airman, Fireman, Constructionman) familiarization training before reporting to the fleet. Conversion NECs identify Petty Officers or strikers who are in training for change of rate or status under approved programs.

2. NECs encompassing a broad range of paygrades (E3-E8) will have a Sequence Code assigned that reflects the paygrade level having the largest number of billets/requirement for that NEC.

3. When an NEC is a component of/or a building block to a more advanced NEC, the Sequence Code assigned to the component NEC will normally be assigned a "lower" position than the principle NEC.

5. **Source Ratings** are listed with each Rating Series NEC.

a. Rating Series NECs will be assigned only to personnel in designated source ratings or the apprenticeship rates and/or striker-identified rates applicable to a designated source rating including DG NEC-identified personnel leading to designated source ratings.

b. Personnel should be nominated or sent to courses of instruction earning NECs only if they are in the proper source rating or apprenticeship.

c. Personnel already specialized by a Rating Series NEC normally should not be nominated or sent to a course of instruction earning an additional NEC unless the course is a logical progression of the earlier specialty training, the NEC held embodies an outdated technology, or they are in an approved program for formal conversion to a new rating.

6. **Paygrade restrictions** for assignment of NECs to individuals and for application to billets are listed in Chapter IV. Refer to Chapter V for paygrade information for Planning Series NECs. Billet paygrades for NECs are provided as guidance in changing or recommending changes to Activity Manpower Document (AMD) or other enlisted

manpower documents. The billet paygrade range information is based on one or more of the following:

a. Personnel paygrade restrictions (see Chapter IV).

b. Training course prerequisites contained in the Catalog of Navy Training Courses (CANTRAC) (NAVEDTRA 10500).

c. Authoritative judgment obtained from BUPERS Enlisted Community Managers, Primary Rating Advisors, and others possessing specialized knowledge.

d. Data provided in research studies and analyses.

D. NEC CODING USED IN MANPOWER, PERSONNEL AND TRAINING INFORMATION SYSTEM (MAPTIS)

1. An NEC is assigned to an individual when it is recorded in the Manpower, Personnel and Training Information System (MAPTIS). Page 4 service record entries reflect these authorized assignments as a 4-digit primary (PNEC) and a 4-digit secondary (SNEC) code. "0000" is used where no Entry, Rating, or Special Series NEC is assigned.

2. Entry Series NECs are always primary and are not removed until an individual has advanced to petty officer status, becomes an identified striker, or changes rating status.

3. Special Series NECs are always SNECs or lower.

4. Rating Series NECs are PNECs, SNECs, or lower (depending on the number of NECs earned by an individual) but may not replace an Entry Series NEC unless the individual has advanced to petty officer status, has become an identified striker, or has changed rating status.

E. APPLICABLE COURSES AND ON-THE-JOB TRAINING

Formal courses of instruction, satisfactory completion of which will earn an NEC, are listed in Chapter IV with the applicable NEC. If a formal course is mandatory for earning an NEC, it will be shown in Chapter IV. Chapter IV will also show if a NEC may be awarded through on-the-job training (OJT) or, if appropriate, through factory training. See NEC assignment information for personnel (Chapter IV

paragraph B.4) for additional information on recommending personnel for NECs based on OJT.

CHAPTER II

RESPONSIBILITIES AND PROCEDURES

A. AUTHORITIES AND RESPONSIBILITIES

1. **The Chief of Naval Personnel (CHNAVPERS)** is responsible for the formulation and implementation of the NEC coding system and for maintaining technical control over the entire NEC system per MILPERSMAN. Authorities and responsibilities delegated by CHNAVPERS, as per MILPERSMAN 1221-010, are outlined below.

2. **The Commanding Officer, Naval Reserve Personnel Center (NRPC)** is responsible for administering the NEC coding system for enlisted personnel not on active duty. In this regard, the Chief of Naval Reserve and the naval reserve readiness commanders will continue to monitor NEC coding efforts by inspections and through the Reserve Field Reporting System (RESFIRST). This includes certification, where appropriate to the Commanding Officer, Naval Reserve Personnel Center, of PN-2612 and Rating Conversion NEC assignments and cancellations.

3. **The Commanding Officer, Enlisted Personnel Management Center (EPMAC)**, in coordination with the Chief of Naval Personnel (CHNAVPERS), is responsible for effective use of NEC information in the distribution, placement, and detailing of enlisted personnel.

4. **Commands conducting courses of instruction** that award NECs are responsible for reporting on students per CNETINST 1510.1 series.

5. **Enlisted Classification Units**, under the technical direction of the CHNAVPERS, are responsible for reviewing NECs, correcting DG Codes where necessary, and recommending coding assignments or cancellations directly to EPMAC (Code 49) or the Commanding Officer, NRPC, as appropriate.

6. **All commands** are responsible to ensure that only personnel in proper source ratings are afforded training in NEC specialties, for making recommendations for NEC identification of billets in their manpower authorizations, assigning or changing DG NECs per this manual, and recommending assignment or cancellation of all other NECs per this manual.

B. INSTRUCTIONS FOR ASSIGNING AND CANCELING NECs

1. **NECs (except Defense Grouping NECs)**, may be assigned or canceled as follows:

a. By commands conducting formal courses of instruction submitting reports per CNET-INST 1510.1 series.

b. By Enlisted Classification Units submitting recommendations to EPMAC (Code 49) for accessions to active duty.

c. By the Commanding Officer, EPMAC (Code 49) for active duty personnel.

(1) Assigning NECs to personnel through on-the-job training or where not otherwise reported via the Navy Integrated Training Resource and Administration System (NITRAS).

(2) Coordinating requests to waiver NEC award requirements with CHNAVPERS (Pers-221) cognizant BUPERS Enlisted Community Manager, as appropriate.

d. By the Commanding Officer, NRPC for inactive duty personnel based on recommendations received from naval reserve commands and units.

e. An individual's NEC assignments, as authorized above, are those recorded in MAPTIS. When notified of changes by receipt of EPMAC 1221/2, commands will record these changes with page 4 service record entries using award date indicated on EPMAC 1221/2. Do not report NEC assignments to EPMAC by personnel diary or to NRPC by RESFIRST entries.

2. **Defense Grouping NECs.** Individual commands and drilling units are directly responsible for assigning and changing DG NEC codes as follows:

a. For personnel in paygrades E-1, E-2, and E-3 who are not identified strikers or are not in the HM or DT apprenticeship rates:

(1) Assignment may be changed to another DG NEC but may never be replaced with "0000".

(2) Personnel in Class A level training who were assigned DG NECs as recruit graduates do not have to be recoded while undergoing courses of instruction, unless disenrolled.

b. In the above cases, record the DG NEC code assignment or change by a page 4 service record entry and report this assignment or change by a personnel diary or RESFIRST NEC entry. All eight digits must be reported.

c. If an individual with an Entry Series code holds a Rating Series code, the NEC code may be changed only by submitting a EPMAC 1221/2 to the Commanding Officer, Enlisted Personnel Management Center (EPMAC) (Code 52) or to Commanding Officer, Naval Reserve Personnel Center as appropriate. This exception does not apply to an individual holding a Special Series code.

d. For personnel holding DG NECs who become identified strikers or petty officers:

(1) Cancel DG NEC by page 4 service record entry.

(2) Do not report cancellation of DG NEC by personnel diary or RESFIRST entry. These NEC codes will be automatically canceled in the Manpower, Personnel and Management Information System (MAPMIS) when the correct rate change or advancement is reported and accepted by the CHNAVPERS or Commanding Officer, NRPC, as appropriate. Canceled codes will continue to appear on at least one EDVR or RESFIRST pending adjustment of NECs.

3. **NECs for Personnel.** Individual commands and drilling units are responsible for recommending assignment or cancellation of all NECs other than Entry Series NECs as follows:

a. *Active Duty*

(1) USN and USNR, including TAR: to Commanding Officer, Enlisted Personnel Management Center (Code 49).

(2) Exceptions to the normal award criteria, including waivers, are to be made to EPMAC (Code 49) via endorsing commands per current OPNAV, BUPERS, NRPC instructions or as

noted in Chapter IV of this manual as a specific note to that NEC. Bureau of Naval Personnel, Head Enlisted Community Management (Pers-221) will provide policy guidance to EPMAC concerning NEC removals and award criteria. Exceptions include:

(a) Nuclear Propulsion Plant Operator (33XX): OPNAVINST 1220.1 (series) (NOTAL) contains amplifying instructions and additional criteria for removing or changing NECs used to designate personnel trained as Nuclear Propulsion Plant Operators (Surface and Submarine). Submit EPMAC 1221/2 for these personnel directly to Bureau of Naval Personnel (Pers-241).

(b) Remove submarine related NECs via Head, Nuclear Power/Submarine Assignment Branch (Pers-403). Of special note, submarine disqualifications and reinstatements will be per the Enlisted Transfer Manual (NAVPERS 15909), Chapter 5 and the MILPERSMAN 1220-040, with Pers-403 as the final adjudicator.

(c) HM/DT NEC removals and waivers of mandatory courses of instruction will in all cases be forwarded by EPMAC to Pers-221 for adjudication.

(1) HM/DT personnel holding an NEC beyond the prescribed paygrade cap will not have their NEC removed without Pers-221 approval. This is to facilitate the management of critical specialties as the inventory paygrade ceilings transition to match billet paygrade ceilings while ensuring the strength of each community adequately sustains mission requirements.

(2) HM/DT personnel who lose their NEC for misperformance or disciplinary reasons will have the NEC removed from the Enlisted Master Record. Commands are required to provide appropriate supporting documentation, (i.e., special evaluation). NEC removals should not be used in place of administrative separation proceedings or forced conversions.

(3) Certification/recertification of clinical proficiency is the responsibility of the member. Failure to attain and maintain clinical proficiency is ground for NEC removal, loss of remaining SRB entitlement, and reassignment as an HM "0000."

NOTE: With current policies and instructions in place to establish the validity of an individual's NEC qualifications, the via endorsement will be the

determining factor in the award or removal of the NEC from the individual's Enlisted Master Record.

b. *Inactive Duty*

(1) All Rating Conversion codes: to the Commanding Officer, Naval Reserve Personnel Center via cognizant Naval Reserve Readiness Commander or Chief, Naval Reserve as appropriate.

(2) Intelligence Specialist personnel in paygrades E-7 and below: to Naval Intelligence Command (NIC-13), 4600 Silver Hill Road, Washington, D.C. 20389-5000 via Commanding Officer with the following documentation:

(a) Inactive Navy Enlisted Classification Code Change Recommendation (EPMAC 1221/2).

(b) Certified copies of last three enlisted evaluations.

(c) All Navy Occupational, Training and Awards History (NAVPERS 1070/604 Rev 11-81).

(3) Restricted NECs (Non-traditional training or experience): to the Commanding Officer, Naval Reserve Personnel Center via cognizant Naval Reserve Readiness Commander/ISIC and Chief of Naval Reserve with the following documentation:

(a) Inactive Navy Enlisted Classification Code Change Recommendation (NAVPERS 1221/1 Rev 6-92), including justification for assignment of requested NEC.

(b) Certified copies of substantiating documentation (degree, vocational certificates, professional licenses, etc.).

(c) Current job description if NEC requested is based on civilian work experience.

(4) Commanding Officer, Naval Reserve Personnel Center will take appropriate action upon receipt and if applicable forward the package, including coordination of request to waiver NEC requirements with CHNAVPERS (Pers-221) cognizant BUPERS Enlisted Community Managers, to the program Technical Advisor for final determination or certification.

C. GENERAL ASSIGNMENT AND CANCELLATION INFORMATION

1. Personnel are automatically assigned NECs upon satisfactory completion of applicable courses through the Navy Integrated Training Resource and Administration System (NITRAS) as outlined in CNETINST 1510.1. This ensures faster NEC assignments and reduces paperwork at the command level. NECs earned through OJT and factory training are not automatically assigned, therefore, increased command attention is required to recommend fully qualified personnel for these NECs. In those cases where NEC assignments are not restricted to mandatory completion of applicable courses or factory training, recommendations can and should be forwarded for assignment of NECs based on OJT. The length of OJT is normally at the discretion of individual commanding officers, however, six to twelve months, depending on the complexity of the NEC, should be considered minimum. Specific requirements for NECs are listed in Chapter IV as "NOTES" under an NEC or NEC group heading. Commanding Officers must ensure that these specific requirements, including any component NECs, are successfully completed.

2. Individuals must either hold or be qualified to hold the component NECs. To recommend personnel for an NEC use the Navy Enlisted Classification Code Change Recommendation (EPMAC 1221/2) for active and inactive duty personnel. See Appendices A and B for additional information and instructions for NEC recommendations.

3. When recommending new NEC assignments, review qualifications for NECs presently held and provide comment, particularly in those instances where a positive requirement exists for maintaining NEC qualifications in accordance with an established criteria, (e.g., Aircrewman qualifications).

4. Close command attention is required for recommending cancellation of NECs. This requires command recommendations to cancel NEC assignments in cases where enlisted personnel do not perform their NEC duties satisfactorily, normally within six months after reporting aboard. Failure to recommend NEC cancellation may result in these unqualified or unsatisfactory performers being reassigned under the NEC, possibly resulting in manning or readiness problems for a new command or in the failure to assign sufficient qualified personnel to current command.

Note: Appendix A provides instructions on how to prepare and submit recommendations for establishing, deleting, or revising NEC codes.

D. COMMAND REQUESTED BILLET NEC CHANGES

1. Procedures are specifically noted in the Manual of Navy Total Forces Manpower Policies and Procedures (OPNAVINST 1000.16 series). The specific information required and format to be followed for each situation is provided in detail.

2. Of special interest, the Activity Manpower Document Short-format Change Request applies to NEC changes being requested for authorized billets. The request format is found in OPNAVINST 1000.16 and applies to military ships and squadrons only. It is provided for requesting minor changes to reduce the response time. The changes that may be requested by use of the short-format change request are restricted to:

a. NEC changes for billets incident to authorized equipment changes. Not authorized using short-form change requests are changes for aircrew, instructor or counselor NECs.

b. Correction of typographical errors noted in Manpower Authorizations, (i.e., billet titles).

3. Submit Activity Manpower Document (AMD) change requests to Navy Manpower Analysis Center (Code 50) via chain of command, (i.e., type commander/manpower claimant. Clearly substantiate the request and attach required supporting documentation.

CHAPTER III

NAVY RATINGS AND ENTRY SERIES NECS

Paragraph A of this section identifies the current Navy ratings. Paragraphs B and C identify the Entry Series NECs used by detailers and classifiers. There are two kinds of Entry Series NECs (1) Rating Conversion and (2) Occupational Area - Defense Grouping.

A. NAVY RATINGS

1. General Ratings (SECNAV Approved): Identify personnel from paygrades E-4 through E-9. They provide the primary means of identifying billet requirements and personnel qualifications. Each rating has a distinctive rating badge.

2. Service Ratings (CNO Approved): These are subdivisions of certain general ratings. Service Ratings identify required specialization and specific areas of qualifications in the utilization and training of personnel. The rating badge for a Service Rating is the same as that for the General Rating.

3. Compression Ratings: Identify the combining of several General or Service Ratings at paygrade E-9 to form broader career fields when the occupational content is similar. These ratings exist only at the E-9 level and are not identified previously as a General or Service Rating. Each Compression Rating has a distinctive rating badge.

4. General Rate: Identify personnel occupationally in paygrades E-1 through E-3.

B. RATING CONVERSION NECS

Detailers use Rating Conversion NECs to identify petty officers or strikers who are in training for change of rating or status under approved programs. Rating Conversion NECs are as follows.

Title	Conversion
Boatswain's Mate Basic	BM-0199
Quartermaster Basic	QM-0299
Operations Specialist Basic	OS-0399
Sonar Technician (Surface)	STG-04G9
Sonar Technician (Submarine)	STS-04S9
Signalman Basic	SM-0599
Torpedoman's Mate Basic	TM-0799
Gunner's Mate Basic	GM-08G9
Fire Control Technician Basic	FT-1199
Fire Controlman Basic	FC-11C9
Mineman Basic	MN-1299
Missile Technician Basic	MT-1399
Electronics Technician Basic	ET-1599
Electronics Warfare Technician Basic	EW-1799
Master-at-Arms Basic	MA-2099
Navy Counselor Basic	NC-2199
Postal Clerk Basic	PC-2299
Information Systems Technician	IT-2399
Religious Program Specialist Basic	RP-2499

**C. OCCUPATIONAL AREA - DEFENSE GROUP-
ING NECs**

Classifiers use Occupational Area - Defense Grouping NECs to identify individuals in paygrades E-1 to E-3 that have received training, are in training, or have an aptitude for training in one of the general Occupational Areas. Occupational Area - Defense Grouping NECs are as follows:

DG-9700 Infantry, Gun Crews, and Seamanship Specialists

Source ratings: BM QM

DG-9710 Electronic Equipment Repairman

Source ratings: ST TM FT MT ET AT CTM FC

DG-9720 Communications and Intelligence Specialists

Source ratings: OS SM IT IS AC AW EW CTI CTO CTR CTT

DG-9730 Medical and Dental Specialists

Source ratings: HM DT

DG-9740 Other Technical and Allied Specialists

Source ratings: DM MU EA AG PH

DG-9750 Functional Support and Administration

Source ratings: PC YN PN SK DK JO AZ AK LN NC CTA RP

DG-9760 Electrical/Mechanical Equipment Repairman

Source ratings: GM MN MM IC CM AD AO AB EN EM AE AM PR AS GS DC

DG-9770 Craftsman

Source ratings: LI MR HT CE EO BU SW UT

DG-9780 Service and Supply Handlers

Source ratings: SH MA MS

Note: The third digit in the DG Codes indicates the DoD Occupational Area Grouping Code.

CHAPTER IV

RATING SERIES AND SPECIAL SERIES NECS

A. PURPOSE

Rating series NECs are for a limited number of ratings and are used for billet requirements and personnel assignment. Rating series NECs identify billet requirements (skill/knowledge requirements) beyond the skill and knowledge that the general rating would provide. Rating series NECs are also assigned to an individual to show that the person has obtained certain skills or knowledge and is qualified for detailing to a billet requirement.

Special series NECs have the same purpose as Rating series NECs but in general, relate to a large number of ratings.

NECs throughout the manual are listed in numerical sequence and not by rating. Chapter 3, Rating Conversion NECs may be used as an index to help locate specific rating NECs.

Headings associated with NEC descriptions identified in this chapter are defined in paragraph B. Shaded print denotes a revision to a previous entry.

B. DEFINITIONS

1. SOURCE RATINGS. Ratings eligible for NEC award.
2. BILLET PAYGRADES. This information is presented as a guidance in writing billets on Manpower Authorization (OPNAV 1000/2). Low/High paygrades reflect the lowest and highest paygrades that can be written for billets identified by the NEC. Commands requesting changes to manpower authorization should comply with these paygrade limits.
3. PERSONNEL PAYGRADES. The NEC may be assigned only to personnel in paygrades indicated.
4. COURSE. Identifies whether completion of a training course(s) is a mandatory requirement for assignment of the NEC or whether the NEC may be earned through OJT (On-the-Job-Training), (i.e., based on qualification through on-the-job training). If the length of OJT is not specified, it shall normally be a minimum of six months.
5. COURSE IDENTIFYING NUMBER (CIN) OR AMPLIFYING DATA. The Navy Course Identifying Number (CIN), Army number, Air Force number, or other applicable descriptive information. The Navy CIN is obtained from the Navy Integrated Training Resources and Administration System (NITRAS). If blank, the NEC is awarded through a combination of one or more Component NECs or on-the-job training, or assignment of NEC has been discontinued.
6. CDP FROM NITRAS. The Course Data Processing Numbers(s) assigned to formal training courses included within NITRAS per CNETINST 1510.1. They are used by the Bureau of Naval Personnel and training activities for reference purposes.

NOTE: CIN/CDP data used in Chapter IV is based on CNET reports N02182 (Skill Verification) and N0297 (Umbrella Skill Verification) of 18 March 1997 and is subject to change.

7. SEQUENCE CODE. The number that appears in this column (1 through 8) identifies the position of NECs on the Enlisted Distribution Verification Report (EDVR) section 8 and other documents used in personnel distribution. Appendix A, pg 2, para 6 provides guidance in determining assignment of Sequence codes.

8. RBTR. Reserve billet training requirement.
9. NR IND (Reservist Indicator). The following letters are used to categorize the attainability of NECs by inactive duty Selected Reserve (SELRES) personnel, and the assignment of NECs to SELRES personnel and manpower requirements:

A: The NEC is attainable by SELRES, and is therefore assignable to SELRES personnel and manpower requirements with no restrictions. SELRES are able to complete training for the NEC within three years of normal inactive duty training cycles of 48 regular drills and two weeks Annual Training (AT) per year (Training Category (TRC) A). The NEC can be earned by the following means:

- Active Duty formal training courses that have not been modified or segmented into modules for SELRES applications,
- Segmented or modularized formal training courses that may be completed within three years of normal TRC A training cycles

(Note 1),

- Specific civilian training/certification (Note 2), or
- On-the-job training (OJT) that can be completed with three years of normal TRC A training cycles (Note 2).

Additionally, NECs are assignable to SELRES manpower requirements if the formal courses of instruction that award the NEC will be modified to facilitate SELRES completion of all requirements for the NEC within three years of normal TRC A training cycles. The requirements for periodic recertification/requalification for the NEC cannot exceed a normal, annual TRC A training cycle (Note 1).

R: The NEC cannot normally be attained by SELRES within three years or normal TRC A training cycles, but is assignable with restrictions to SELRES manpower requirements if SELRES already holding a NEC in this category can maintain periodic recertification/requalification required for the NEC within a normal, annual TRC A training cycle (Note 3).

N: The NEC is not assignable to SELRES personnel or manpower requirements because periodic recertification/requalification for the NEC cannot be maintained by a SELRES during a normal, annual TRC A training cycle. Programming of SELRES manpower requirements with these NECs is not authorized (Note 4).

Note 1: A formal training course that awards the NEC or maintains recertification/requalification may be segmented into modules if recommended by COMNAVRESFOR (Code 04), approved by CNO (N7/CNET) and certified to be funded for segmentation by the appropriate OPNAV resource sponsor. If the training agent certifies that the training course will be on line within one year, assignment of the NR IND of A is allowed.

Note 2: NECs will be awarded to SELRES personnel upon completion of civilian training courses leading to the awarding of a certificate, diploma or license, and for the completion of OJT when a waiver of formal training requirements has been requested and obtained from the appropriate training agent.

Note 3: NAVMAC (Code 50) will limit the number of SELRES manpower requirements with "R" NECs in the Total Force Manpower Management System (TFMMS) to 125% of the number of SELRES personnel in inventory holding the NEC. Requirements will be reviewed annually to ensure they do not exceed this limit, and reprogramming actions directed where necessary.

Note 4: NAVMAC (Code 50) will direct management actions to eliminate or preclude establishment of SELRES manpower requirements with "N" NECs.

Note 5: COMNAVRESFOR will annually review and coordinate the update of all SELRES NEC categories with appropriate NEC Advisors.

10. COMPONENT NEC. Prerequisite requirement for assignment of the principal NEC. A component NEC is removed once a principal NEC is assigned.

11. RELATED NEC. NEC that is not a prerequisite to the principal NEC, but is similar or identical with part or parts of a principal NEC.

12. WOMEN IND. Open: NEC is open to women. Closed: NEC is not open to women.

13. PRIMARY ADVISER. The command or office with primary responsibility for the functional or mission area that a NEC is principally used. The Primary Advisor is concerned with all aspects of associated NECs.

14. TECHNICAL ADVISOR. The command or office having cognizance over the technical areas in which a NEC is principally used. The Technical Advisor is concerned with manpower or weapon system relationships and training requirements related to technical aspects of the NEC.

15. ECM/PERS: Pers-2 code responsible for managing the "health and welfare" and career development plans of the enlisted ratings, rates and NECs within his/her purview.

C. NEC DESCRIPTIONS

BOATSWAIN'S MATE

BM-0107 Minesweeping Boatswains Mate

Performs and supervises rigging, streaming and recovery of all minesweeping gear. Performs organizational level maintenance (less electrical) on minesweeping equipment.

Source ratings: BM QM MN
Course: Course Mandatory
Sequence Code: 6

Billet Paygrades: E3-E7
CIN: A-060-0631
RBTR:

Personnel Paygrades: E4-E8
CDP: 3000
NR Ind: R

Component NEC:
Primary Advisor: CNO N869

Related NEC:
Technical Advisor: NAVSEA

Open to Women: Yes
ECM: N13

NOTE: NEC is considered adaptable to future employment of helicopter teams assigned a mission formerly performed by shipboard non-helicopter assisted mine-sweepers and the attendant crews.

BM-0120 Battle Force Intermediate Maintenance Activity (BFIMA) Rigger/Weight Tester

Performs intermediate-level maintenance procedures in the repair of rigging equipment, providing general rigging and manufacturing services, and the weight testing of equipment, fixtures, ladders, handrails and elevators. Demonstrates knowledge of intermediate-level repair procedures, repair and maintenance standards, quality assurance specifications, and proper use of IMA industrial machinery. Performs work as a journeyman-level craftsman including adjustment of pneumatic chain hoist, come-a-long, plate and beam clamps. Provides general rigging services requiring installation of wire ropes through ship's rigging, rigging of equipment onto mounting foundation, rigging service (ship to shop), and operation of ship's hoist and monorail. Provides crane crew services (both critical and non-critical lift) as tagline handler, rigger and crane signalman. Performs manufacturing services as well as weight test of weight handling equipment and fixtures including tiedowns, boat hoisting fixtures, bits, cleats, chocks, padeyes, weight handling equipment, and underway refueling and replenishment stations. Additionally, weight test vertical/inclined, Jacob's/pilot and debarkation ladders, handrails and lifelines, and both store and weapons elevators.

NR Ind: N
Open to Women: Yes
ECM: N13

Note: This proficiency-based NEC will be awarded through documented completion of appropriate Job Qualification Requirement (JQR) milestones specified for the BFIMA Rigger/Weight Tester skill area. Qualification elements may be obtained through either formal or non-traditional training. The primary means of training will be lead by journeyman-level craftsmen supplemented by appropriate self-paced instruction, or through On-the-Job Training (OJT) consistent with Department of Labor journeyman licensing.

BM-0160 Causeway Barge Ferry Pilot

Pilots Causeway Barge Ferries up to 360 feet long for the ship-to-shore movement of equipment and cargo during amphibious assault logistics operations and/or maritime prepositioned shipping operations. Communicates piloting instructions to craft used for barge ferry propulsion. Directs ferries alongside ships for lift-on/lift-off operations. Directs ferry beaching and retraction.

NOTE: Course mandatory for naval reserve personnel. Active duty personnel may earn this NEC by completion of PQS/OJT or course completion.

BM-0161 Tugmaster

Operates YTM/YT tugs to assist in docking, undocking, drydocking, and cold iron moves. Directs use of head, breast and powerlines and stern tow makeups. Employs International and Inland Rules of the Road, navigational, visual, and radio communications procedures. Directs the operation and maintenance of engineering plant, deck machinery, firefighting and other emergency equipment. Assists in sea/air rescue and missions of mercy operations. Directs the movement of non-self-propelled Yard Craft within the boundaries of harbors, bays and sounds.

OS-0318-0324 RADAR AIR CONTROLLER

Controls/supervises control of aircraft in tactical operations. Operates/supervises operation of radar, NTDS, communications and associated equipment in the exercise of air control functions. Participates in search and rescue and aircraft emergency operations. Ensures correct positioning of aircraft in specified areas, air corridors and approach or departure tunnels.

NOTE: Qualification, requalification and maintenance proficiency requirements for AIC, ASAC, AICS, ATACO, ASTAC and ASTACSUP personnel are set forth in OPNAVINST 1211.2 Series. Personnel who fail to maintain qualification through prescribed proficiency requirements are no longer eligible to retain the NEC. A EPMAC 1221/2 will be submitted to EPMAC Code 49 for NEC removal. This NEC removal requirement is waived for a period of 36 months for those personnel who were previously qualified but subsequently transferred to shore duty. Personnel who requalify through formal training will have reestablished their qualification and award of the NEC.

OS-0318 Air Intercept Controller

Performs air intercept functions.

NOTES:

1. FC personnel E4 and above must hold NEC FC-1169 in order to be eligible to earn this NEC.
2. OS personnel E4 with their Commanding Officer's recommendation are eligible to earn this NEC.

OS-0336 Tactical Support Center (TSC) Operations Control Operator.

Operates direct view consoles, large group displays, the Navy Standard Tactical Computers (DTC-2, TAC-3/4), STU IIIs and other computer peripherals and terminals associated with the ASWOC network including communications equipment. Prepares briefs, debriefs, plot contacts and conducts mission replays. Interacts with the Navy Command and Control System (NCCS) to monitor operations process message traffic and display information.

OS-0343 AN/SYQ-13 NAV.C2 Operator

Operates the AN/SYQ-13 Navigation, Command and Control (NAV/C2) system. Performs as team member in the COASTAL Minehunter (MHC) ship Combat Information Center (CIC). Executes exigent command and control functions such as determining ship's position, track and movement information (course, speed, set, drift, advance), relative position information of the ship to minefields, swept channels, and mine-like objects and actual position identification of mine-like objects using all available navigation and environmental sensors including sonar surface radar, and ships control displays. Maintains operator logs and ensures proper documentation of mission records.

OS-0345 Joint Tactical Ground Station (JTAGS)/Multi-Mission Mobile Processor (M3P) System Operator/Maintainer

Responsible for processing and dissemination of real time warning of tactical ballistic missile (TBM) launches, Slow Walkers and other significant tactical events (The M3P's will also have some strategic capability). Processes data from up to three Defense Support Programs (DSP) or Space Based Infrared System (SBIRS) satellites which link directly to theater tactical communication systems for timely and accurate launch locations information, impact area prediction and threat position/velocity data to support early warning, targeting, alerting, and cueing requirements for all services. Also responsible for troubleshooting, analyzing, and performing low level maintenance on antenna relays and interfaces, computers, and self-contained communications devices. Responsible for the transport (March Order), and emplacement of a 8x8x20 ft, C-141 deployable shelter and associated equipment.

STS-0416 Acoustic Intelligence Specialist

Performs independent duty afloat and ashore as an advisor to Commanding Officers and sonar organizations on acoustic intelligence matters. Reviews documentary, aural and graphically displayed sonar information. Determines nature and origin of acoustic intelligence and prepares

acoustic reports. Assists in developing techniques for derivation of maximum information and intelligence value from acoustic data. Prepares and provides briefings and formalized training on acoustic intelligence and related matters.

Source Rating: STS STG	Billet Paygrades: E6-E9	Personnel Paygrades: E6-E9
Course:	CIN:	CDP:
Sequence Code: 2	RBTR:	NR Ind: R
Component NEC:	Related NEC:	Open to Women: No
Primary Advisor: CNO N879, CNO N869	Technical Advisor: ONI	ECM: N13

NOTES:

1. Must be physically qualified to perform duty on board submarines. Personnel holding NEC ST-0416 are routinely assigned temporary additional duty (TAD) on board submarines during the qualification program and subsequent sea duty tour.
2. Personnel who are assigned to a billet other than an ST-0416 billet for more than a two year period must requalify at NAVTECHINTCEN prior to being reassigned to an ST-0416 billet. NAVTECHINTCEN will submit a EPMAC 1221/2 in accordance with Appendix B to remove NEC ST-0416 for personnel who fail to qualify.
3. STS personnel must successfully complete a 15-18 month training program (at either UIC 32998, UIC 42914 or UIC 42916) and receive Board qualification at NAVTECHINTCEN for award of NEC ST-0416.
4. STG personnel must successfully complete a 15-18 month training program (at UIC 32998 or UIC 46089) and receive board qualification at NAVTECHINTCEN for award of NEC ST-0416.

STG-0417 ASW Specialist

Assists in preparation of ASW operations. Analyzes and determines the classification of received acoustic signals. Evaluates target motion analysis and sonobuoy localization. Conducts post mission analysis and initial reconstruction. Directs the ship's acoustic analysis training and qualification program. Advises on threat interpretations and sonar employment.

Notes:

1. This NEC may be earned by completion of four formal training courses:

- a. Tomahawk Watch Officers Course CIN: J-121-0524
- b. NTCS-A Managers Course CIN: J-2G-2302
- c. OTH-T C4I Course CIN: K-2G-0127
- d. C4I Systems engineering Course CIN: K-121-0181

Personnel who complete the four formal courses listed will be awarded NEC FC-1332. Submit NAVPERS 1221/1 to EPMAC Code 52.

2. Per guidance set forth in NTP S-30-9411, upon assignment to staff duty, (group and numbered fleets) NEC FC-1332 qualified personnel will attend two additional courses:

- a. TLAM Tactical Commanders Course CIN: K-2G-3005
- b. MDS Staff Employment Course CIN: J-2F-2100

Prospective Staff Tomahawk Employment Assistants should utilize a "Functional Area Code (FAC) in the manning requisition, requiring this additional training.

FC-1333 Advanced TOMAHAWK Weapon Control System (ATWCS) AN/SWG-4 Operator and Maintenance Technician

Operates the TOMAHAWK Workstation Consoles and Operator Interactive Display Terminals in the Advanced TOMAHAWK Weapon Control System AN/SWG-4 to control and monitor the targeting, pre-setting and launching of TOMAHAWK missiles. Conducts periodic Over The Horizon-Targeting data base updates. Stores and retrieves selected data and processes incoming operational data to provide a comprehensive surface display of the operation area of interest. Performs preventive and corrective maintenance for the alignment, adjustment, removal,

replacement of Lowest Replaceable Units to include computer diagnostic tests, fault isolation of casualties, and testing to ensure restoration of equipment availability to support mission requirements.

Component NEC:	Related NEC:	Open to Women: Yes
Primary Advisor: CNO N61	Technical Advisor: NCTC	ECM: N13

IT-2306 Computer Based Training Technician

Management tool for tracking personnel who have completed either the Radioman "A" school or Computer Based Training. This will allow individuals with the NEC to be fully detailed in either the DP or IT ratings until the merger is complete.

Source Rating: IT	Billet Paygrades: E3-E9	Personnel Paygrades: E3-E9
Course:	CIN:	CDP:
Sequence Code: 3	RBTR:	NR Ind: R
Component NEC:	Related NEC:	Open to Women: Yes
Primary Advisor: CNO N6	Technical Advisor: NCTC	ECM: N13

NOTE: Upon successful completion of the new Information Systems Technician "A" school located at SSC San Diego, CA or the 40 hour CBT course, submit EPMAC 1221/2 to EPMAC (Code 49), via COMNAVCOMTELCOM, Code N12 with accompanying documentation.

IT- 2318 Communications System Technical Control Operator

Coordinates complete processing of communications signals including satellite transmission and reception paths. Operates or controls operation of long-haul and/or local communication equipment systems including cryptographic, transmitters, receivers, DC and audio frequency patch boards, and telegraphic terminal equipment. Maintains signal quality and determines point of signal deterioration through use of test equipment such as monitor teletypewriters, order wires, transmission distortion test sets, oscilloscopes, audio level and noise level meters, spectrum analyzers, and fleet satellite monitor. Analyzes quality control results to identify preventive or corrective action required. Restores communications by appropriate means. Prepares and maintains circuit quality and outage logs and reports.

Source Rating: IT	Billet Paygrades: E5-E7	Personnel Paygrades: E5-E7
Course:	CIN:	CDP:
Sequence Code: 4	RBTR:	NR Ind: R
Component NEC:	Related NEC:	Open to Women: Yes
Primary Advisor: CNO N20, N6	Technical Advisor: SECGRU, NCTC	ECM: N13

NOTE: No new assignments of this NEC.

IT-2319 Communication System Technical Control Supervisor

Directs control, operation and patching of long-haul communications media (including satellite) and local circuits. Manages selection of transmitting, receiving and terminal equipment, use of cryptographic equipment including shifts and adjustments and all equipment on the air. Ensures reliable communications through familiarity with all possible combinations of antennas, transmitters, receivers, frequencies, and terminal equipment. Directs circuit and system performances tests, ensures that corrective action is taken in case of circuit outages and that control links and land lines are properly used. Coordinates operational changes on circuits with subscribers. Inspects and maintains logs and records of data pertinent to control center operations. Maintains watch to watch integrity of administrative, operational and cryptographic publications and materials.

Source Rating: IT	Billet Paygrades: E6-E7	Personnel Paygrades: E6-E7
Course: OJT	CIN:	CDP:
Sequence Code: 7	RBTR:	NR Ind: A
Component NEC: 2318	Related NEC:	Open to Women: Yes
Primary Advisor: CNO N20, N61	Technical Advisor: SECGRU, NCTC	ECM: N13

NOTE: NEC assignment is based on a minimum of one year supervisor experience as a IT-2318 at a NAVCAMS/NAVCOMMSTA and/or ships with extensive ship-shore communication commitments such as LCC's, CV's, and other ships designated as major flag ships. Submit EPMAC 1221/2 to EPMAC (Code 49) via COMNAVCOMTELCOM (Code N12) with copies of service record page 4's and enlisted evaluations which document experience in tech control.

IT-2321 Surface Communication Systems Operator

Coordinates complete processing of communication signals in surface ship communication suites at a systems level. Operates or controls the operation of long-haul and/or short-range communication equipment systems. Uses SSQ-88 quality Monitoring Systems and Total Ship Test Programs to analyze circuit degradation and identify preventive or corrective measures required on covered and uncovered LF, HF, VHF, UHF, and SATCOM subsystems as well as cryptographic equipment and the Single Audio System.

NOTES:

1. NEC may be awarded upon successful completion of Chaplain/RP Expeditionary Skills Training (CREST) course. Additionally, the NEC may be awarded to RPs who laterally convert from the Marine Corps.
2. RP personnel must be advised of Marine Corps standards for appearance and fitness. Personnel must pass a color blindness screening, and a valid driver's license is required to operate a tactical vehicle.
3. CREST replaces Marine Combat Training (MCT).

YEOMAN

YN-2514 Flag Officer Writer

Serves on the personal staffs of Flag and General Officers, and certain other senior officers in command positions at sea and ashore. Must be able to function independently and carry out required duties. Must be able to draft personal and professional correspondence; act on matters of social usage, protocol, honors and ceremonies; prepare and liquidate travel orders; and prepare Officer Reports of Fitness. Individuals serve in a highly visible position and must conduct themselves in a professional manner at all times. Additionally, members will be required to satisfactorily meet any additional requirements of the Flag Officer.

MT-3320 Nuclear Weapons Specialist (NWS)

Performs depot level maintenance on nuclear weapons. Encompasses three critical nuclear ordnance skill areas, Vertical Missile Packaging Branch (VMPB) Mate/Demate Technician, Service Unit Technician and Limit Life Component Exchange (LLCE) Technician. The VMPB Mate/Demate and Service Unit Technician performs handling, mating/demating, packaging/unpackaging and inspections of Re-entry Bodies (REB's). The LLCE Technician performs REB handling, packaging/unpackaging, inspections testing, and maintenance and replacement of REB limited life components. These skills are not provided by any of the source rating skills.

Open to Women: No
ECM: N13

NOTE: Previously qualified for any 335X/336X NEC but not currently assigned to a nuclear propulsion plant billet associated with the supervision, operation, and maintenance of a nuclear propulsion plant. NEC assignment determined by Bureau of Naval Personnel (N13). NAVMILPERSCOM INSTRUCTION 1540.1 Series and OPNAVINST 1220.1 Series (NOTAL) apply.

3363-3366 Submarine Nuclear Propulsion Plant Supervisors

Fully qualified by virtue of seniority, experience and demonstrated proficiency (including specified watchstation qualification) to supervise the operation and maintenance of a submarine nuclear propulsion plant.

NOTE:

1. Assigned upon recommendation by the Commanding Officer to Petty Officers Second Class and above who have completed six or more years active naval service and are currently qualified the specified watchstations. For paygrade E-5, the Commanding Officer should ensure all military and professional requirements for advancement to E-6 are completed before forwarding recommendation. (Include watchstation qualification dates and completion of advancement requirements on EPMAC 1221/2.)
2. Members serving in senior nuclear billets (NEC 336X) at commands where the specified watchstations do not exist are considered to have satisfied the watch qualification criteria if they were previously qualified on the required watchstations. Personnel who are advanced to CPO while serving at these commands may continue to be eligible for NEC 336X based on previous attainment of watchstation qualification required for paygrade E-6. In all cases, previous watchstation qualification must be documented in the member's service record.
3. Members with NEC 336X who are transferred to a nuclear powered ship and assigned in a senior nuclear billet will retain NEC 336X for a maximum of six months. If the member has requalified on the applicable watchstations, NEC 336X may be retained. If the member has not requalified in six months, the Commanding Officer is directed to recommend a change in NEC 336X to 335X or removal of NEC as appropriate. (See OPNAVINST 1220.1 Series for guidance.)
4. First Class Petty Officers with NEC 336X attached to nuclear powered ships who are advanced to CPO will retain their NEC while completing qualification as Engineering Watch Supervisor. OPNAVINST 1220.1 Series (NOTAL) specifies time limits for attainment of required watchstation qualification.
5. Members with NEC 3359 who are scheduled to be transferred to a nuclear powered ship are screened by Bureau of Naval Personnel (N13) per NAVMILPERSCOM INSTRUCTION 1540.1 Series. Based upon this screening, NEC 335X or NEC 336X will be assigned. Bureau of Naval Personnel (N13) will specify requalification time limits for the individual by letter to his commanding officer. NAVMILPERSCOM INSTRUCTION 1540.1 Series and OPNAV INSTRUCTION 1220.1 Series (NOTAL) apply. Commanding Officers should recommend NEC change to 335X as a step toward possible NEC removal recommendation when personnel with 336X are delinquent in requalification. (See OPNAVINST 1220.1 Series of guidance.)
6. Commanding Officers shall recommend NEC 335X in the case of those members with NEC 336X who are unable to maintain the necessary proficiency and leadership skills for continued assignment in senior nuclear power supervisor positions but who are still considered satisfactory nuclear propulsion plant operators. Those personnel who are unable to regain the necessary proficiency and leadership skills for supervisory positions should be considered for removal of their nuclear operator NEC 335X. (See OPNAVINST 1220.1 Series of guidance.)
7. On each ship there may be a few, singularly outstanding individuals who have clearly demonstrated that they are able to be effective supervisors prior to having six years time in service. In order to recognize the exceptional performance of these individuals, Commanding Officers may recommend a waiver of the six year time in service requirement to a minimum of five years time in service for supervisory NEC (336X). This recommendation will be on a case basis for those individuals who, in addition to meeting the requirements of paygrade, technical ability, and leadership, have qualified as Engineering Watch Supervisor (EWS). The waiver of the time in service requires the approval of the Bureau of Naval Personnel (N13).
8. Submit recommendations for change or removal of NECs for Enlisted Nuclear Propulsion Operators to the Bureau of Naval Personnel (N13) who will resolve the NEC change recommendation. (See OPNAVINST 1220.1 Series for additional guidance.)

NOTE: Previously qualified for any 338X/339X NEC but not currently assigned to a nuclear propulsion plant billet associated with the supervision, operation and maintenance of a nuclear propulsion plant. NEC assignment is determined by the Bureau of Naval Personnel (Pers-241). NAVMILPERSCOMINST 1540.1 Series and OPNAVINST 1220.1 Series apply.

3393-3396 Surface Ship Nuclear Propulsion Plant Supervisors

Fully qualified by virtue of seniority, experience and demonstrated proficiency (including specified watchstation qualification) to supervise the operation and maintenance of surface ship nuclear propulsion plants.

NOTES:

1. Assigned upon recommendation by the Commanding Officer to Petty Officer Second Class and above who have completed six or more years active naval service and are currently qualified the specified watchstations. For paygrade E-5, the Commanding Officer should ensure all military and professional requirements for advancement to E-6 are completed before forwarding recommendation. (Include watchstation qualification dates and completion of advancement requirements on EPMAC 1221/2.)
2. Members serving in senior nuclear billets (NEC 339X) at commands where the specified watchstations do not exist are considered to have satisfied the watch qualification criteria if they were previously qualified on the required watchstations. Personnel who are advanced to CPO while serving at these commands may continue to be eligible for NEC 339X based on previous attainment of watchstation qualification required for paygrade E-6. In all cases, previous watchstation qualification must be documented in the member's service record.
3. Members with NEC 339X who are transferred to a nuclear powered ship and assigned in a senior nuclear billet will retain NEC 339X for a maximum of six months. If the member has requalified on the applicable watchstations NEC 339X may be retained. If the member has not requalified in six months, the Commanding Officer is directed to recommend a change in NEC 339X to 338X or removal of NEC as appropriate. (See OPNAVINST 1220.1 Series for guidance.)
4. First Class Petty Officers with NEC 339X attached to nuclear powered ships who are advanced to CPO will retain their NEC while completing qualification as Engineering Watch Supervisor or Propulsion Plant Watch Supervisor. OPNAVINST 1220.1A (NOTAL) specifies time limits for attainment of required watchstation qualification.
5. Members with NEC 3389 who are scheduled to be transferred to a nuclear powered ship are screened by Bureau of Naval Personnel (N13) per NAVMILPERSCOMINST 1540.1 Series. Based upon this screen, NEC 338X or NEC 339X will be assigned. Bureau of Naval Personnel (Pers-241) will specify requalification time limits for the individual by letter to his Commanding Officer. NAVMILPERSCOMINST 1540.1 Series and OPNAVINST 1220.1 Series (NOTAL) apply. Commanding officers should recommend NEC change to 338x as a step toward possible NEC removal recommendation when personnel with NEC 339X are delinquent in requalification. (See OPNAVINST 1220.1 Series for guidance.)
6. Commanding Officers shall recommend NEC 338X in the case of those members with NEC 339X who are unable to maintain the necessary proficiency and leadership skills for continued assignment in senior nuclear power supervisory positions but who are still considered satisfactory nuclear propulsion plant operators. Those personnel who are unable to regain the necessary proficiency and leadership skills for supervisory positions should be considered for removal of their nuclear operator NEC 338X. (See OPNAVINST 1220.1 Series for guidance.)
7. On each ship there may be a few, singularly outstanding individuals who have clearly demonstrated that they are able to be effective supervisors prior to having six years time in service. In order to recognize the exceptional performance of these individuals, Commanding Officers may recommend a waiver of the six year time in service requirement to a minimum of five years time in service for supervisory NEC (339X). This recommendation will be on a case basis for those individuals who, in addition to meeting the requirements of pay grade, technical ability and leadership have qualified as Engineering Watch Supervisor (EWS) or Propulsion Plant Watch Supervisor (PPWS). The waiver of the time in service requires the approval of the Bureau of Naval Personnel (N13).
8. Submit recommendation for change or removal of NECs for Enlisted Nuclear Propulsion Operators to the Bureau of Naval Personnel (N13) who will resolve the NEC change recommendation. (See OPNAVINST 1220 1 Series for additional guidance.)

IS-3905 Independent Surface Warfare Operational Intelligence (OPINTEL) Analyst

Serves as the intelligence representative aboard surface ships without an assigned intelligence officer or serves as an assistant to intelligence officers assigned to afloat staffs or selected shore commands. Performs analytical and functional computations, all source contact analysis, correlation, and sanitization in support of C4I integration for commanding officers and afloat staffs. On ships, generates reports on handheld and airborne surveillance photography. Coordinates ship's intelligence training program. Maintains a complete and current intelligence publications library. Manages ship's intelligence collection program. On both ships and staffs, performs evaluations and briefs of the current or projected threat within the operational environment. Senior personnel detailed to operational afloat and ashore staffs provide intelligence assistance, training and inspections services to operational forces and component units.

NOTES:

1. NEC can be awarded to SELRES personnel who have completed specified training or who have completed a combination of training and specified experience as indicated below:
 - a. USAF Course X3ABR20630-001, X3ABR20630-002, or X3ABR20630-003, Lowery AFB, CO or Goodfellow AFB, TX.
 - b. U. S. Army Course 242-96D10 (AIT), Ft Hauchuca, AZ.
2. Other documented imagery interpretation training received from a secondary school, university, or commercial course of instruction may qualify for NEC 3910 when coupled with extensive experience as outlined below:
 - a. At least one tour of duty as an imagery interpreter while on active duty.
 - b. At least one year of civilian employment as an imagery interpreter.
 - c. At least 200 workdays of Active Duty for Training (ACDUTRA) and weekend drills where the primary duty was imagery interpretation.
3. No new assignment of this NEC to E3 personnel. E3 personnel who currently hold this NEC may retain their NEC.

IS-3912 Naval Special Warfare (NSW) Intelligence Specialist

Provides comprehensive intelligence support to NSW operations. Performs analytical assessment and all-source intelligence analysis. Conducts joint Special Operations Forces (SOF) mission planning and analysis using standardized procedures in support of SOF. Identifies detection and destructive threats to NSW forces/platforms performing mission functions. Operates NSW Special Operations Command (SOCOM) joint intelligence equipment and applicable software systems.

GS-4140 Battle Force Intermediate Maintenance Activity (BFIMA) Gas Turbine Repair

Performs intermediate-level repair to marine gas turbine engines of FFG-7, CG-47, DD-963, DDG-51 and AOE-6 class ships. Performs work as a Journeyman-level Craftsman including: Inspection, repair, removal and replacement of General Electric LM2500 gas turbine main propulsion and Allison gas turbine main propulsion and Allison gas turbine generator set components. Processes include replacement of components such as gas generators (DD/CG), power turbines (DD/CG), high speed coupling shafts (DD/CG), gas generators (FFG), power turbines (FFG), high speed coupling shafts (FFG), compressor rotor blades, shrouds and bushings, bearings and stationary seals, C-sump lube nozzle, high pressure turbine rotor pairs and nozzles, combustors, and replacement of reduction gear high and low speed pinion bearings. Additional processes include separation of components, such as: Gas generators at TMF/CRF flanges and power turbines, and high pressure turbine rotors from gas generators, as well as inspection, repair and removal of SSGTG engines, turbines, combustion liners and power takeoff assemblies.

Qualification elements may be obtained through either formal or non-traditional training. The primary means of training will be led by journeyman-level craftsman supplemented by appropriate self-paced instruction, or through On-the-Job Training (OJT) consistent with Department of Labor journeyman licensing.

MM-4201 Cryogenics Technician, Overseas Shore Based Equipment Operator/Maintainer

Operates, tests, inspects, and performs organizational and intermediate level maintenance on shore based (overseas) high and low pressure liquid oxygen and nitrogen generating plants in the manufacture of liquid oxygen and liquid nitrogen. Tests liquid oxygen and liquid nitrogen for purity and acetylene contamination. Performs required checks on O2/N2 compressed gas cylinders both prior to and after charging them to proper pressure. Operates and maintains mechanical refrigeration systems, reciprocating high pressure and centrifugal low pressure air compressors, cryo generators, vacuum pumps, and gaseous distribution systems. Detects, analyzes and corrects abnormal situations which may arise during operation of liquid oxygen/nitrogen generating plants.

MM-4204 Steam Propulsion Maintenance Supervisor

Supervises organizational level maintenance and conducts onboard maintenance training on conventional propulsion boilers, steam propulsion engines, forced draft blowers, associated machinery, ship service turbine generators (SSTG), steam plant controls/regulating components (less automatic boiler controls), supporting auxiliary equipment, valves and piping systems. Conducts equipment material inspections, identifies abnormal equipment conditions and initiates corrective action. Maintains a current inventory of all required maintenance/repair records, technical documentation, special tools and repair equipment.

MM-4222 Battle Force Intermediate Maintenance Activity (BFIMA) Pump Repair

Performs intermediate-level maintenance procedures in inspection and repair of marine main propulsion and auxiliary pumps. Demonstrates knowledge of intermediate-level repair procedures, repair and maintenance standards, quality assurance specifications, and proper use of IMA industrial machinery. Performs work as a Journeyman-level Craftsman including the following work processes: Align pumps on drivers; disassemble, inspect and repair rotary vane, centrifugal, gear and reciprocating piston pumps. Provides equipment for hydrostatic test services (non-nuclear systems). Aligns single and double couplings utilizing dial indicator/alignment computer.

MM-4223 Battle Force Intermediate Maintenance Activity (BFIMA) Air Conditioner and Refrigeration

Demonstrates knowledge of intermediate-level repair procedures, repair and maintenance standards, quality assurance specifications, and proper use of IMA industrial machinery. Performs work as a Journeyman-level Craftsman including inspecting, troubleshooting, and repair of refrigeration A/C compressors and systems including centrifugal and reciprocating compressors. Repairs compressors, 1.1 or 1.5 ton; York or Carrier air conditioners, 75 or 80 ton; and lithium bromide units. Inspects, repairs, and tests freon-type low pressure (LP), and desiccant-type low (LP) and high pressure (HP). Repairs main air conditioning plants, package units (3, 5, and 7.5 ton), free-standing and under-counter refrigerators/freezers. Provides flushing and testing services for chiller and condenser cleaning, gas system leak test (N2), inert gas blowdown and blanket, system hydrostatic test (shop), and ventilation (air flow) testing (shop). Aligns equipment including single/double couplings, dial indicator/alignment computer. Prepares and installs brazed piping joints (grade 3, 4, and 5).

MM-4225 Battle Force Intermediate maintenance Activity (BFIMA) Boiler Repair Technician

Performs intermediate-level maintenance procedures on marine propulsion boilers, auxiliary and waste heat boilers. Demonstrates knowledge of intermediate level repair procedures, repair and maintenance standards, quality assurance specifications, and proper use of IMA industrial machinery. Performs work as a Journeyman-level Craftsman effecting boiler repairs tube and tube stub removal; tube installation; expanding tubes; drum and header defect; hand hole seat, and superheater tube, tube seat and header, and weld joint tube. Performs cleaning operations on boilers using waterjet systems. Performs heat exchanger repairs including tube leak detection; waterjet, blow brush/plug mechanical cleaning; tri-sodium phosphate and sulfamic acid chemical cleaning; single and double tube sheet tube plugging; and packed tube heat exchanger/condenser and temporary repair tube plugging. Performs tube removal using various methods including packing removal, drift and adapter, rod, hydraulic ram, and stretching and pulling method. Performs tube seat repairs using epoxy resin and line ream and expand methods. Performs tube preparation and installation using tube adapter, thread over rod, and tube pilot methods. Performs tube rolling and belling, gasket fabrication and renewal, zinc requirements and installation, and plate type general maintenance. Provides asbestos services including conducting evaluations (sample collection only) and removal.

MM-4226 Battle Force Intermediate Maintenance Activity (BFIMA) Boiler ACC Technician

Performs intermediate-level maintenance procedures on marine propulsion boilers, automatic combustion control and feedwater control systems. Demonstrates knowledge of intermediate-level repair procedures, repair and maintenance standards, quality assurance specifications, and proper use of IMA industrial machinery. Performs work as a Journeyman-level Craftsman including inspecting, repairing, and bench-testing pneumatic controls including water level control pilots (Model LAPBN-1), draft level control pilots (Model LAPBN-2), control pilots (Models PRAN and PDAN), and temperature control pilots (Models RTP-2N and DTP-2N). Inspects, repairs, tests, calibrates, and bench-tests differential pressure transmitter/indicators including airflow transmitters (Model 30244), Barton mechanical and Yarway boilerwater level indicators, and steam/feedflow transmitters (Model 285). Inspects, repairs, tests, and calibrates main boiler control system components including two- and four-way automatic/manual control stations, G/R Models 50 and 55 controllers, steam pressure transmitters (Model 173), Moore valve positioners (Model 721LP525), characterizing relays (Model 1771), fuel air ration relays (Model 1803), high/low limit relays, and smart electronic

transmitters. Inspects, repairs, tests, and calibrates auxiliary boiler control systems including feedwater control systems for the following ship classes: LSD-42, DD-963, CG-47, and CV/CVN. Inspects, repairs, tests, and calibrates controllers including Ametek, Masoneilon, and pneumatic hydraulic (Hagen) controls.

EN-4340 Battle Force Intermediate Maintenance Activity (BFIMA) Diesel Engine Repair

Performs intermediate-level maintenance on marine diesel engines used for propulsion or generator service. Demonstrates knowledge of intermediate-level repair procedures, repair and maintenance standards, quality assurance specifications, and proper use of IMA industrial machinery. Performs work as a Journeyman-level Craftsman including: cleans diesel engine internal and external components, and disassembly and repair of diesel engines (inline and V-type) up to 200HP, up to 600HP, and up to 1200HP. Repairs replaces and tests air start otors, cylinder heads, engine driven blowers and component alignment, pedestal bearings, fuel oil piping, labyrinth seals, transmissions, and vibration dampers. Repairs and adjusts turbine blowers (turbochargers), generators alignment, P-100 pump repairs, and torque foundation bolts. Performs hot oil flushes. Performs processes involving equipment alignments for single/double couplings, and maintains, troubleshoots, and repairs RHIB systems.

EN-4341 Battle Force Intermediate Maintenance Activity (BFIMA) Governor & Injector Repair Technician

Performs intermediate-level maintenance on marine diesel engine governors and injectors, used for propulsion or generator service. Demonstrates knowledge of intermediate-level repair procedures, repair and maintenance standards, quality assurance specifications, and proper use of IMA industrial machinery. Performs work as a Journeyman-level Craftsman including troubleshooting, repairing, and testing fuel pumps including Bosch pattern APF, APE, and distributor pumps. Troubleshoots, repairs and tests Woodward EG and UG series governors. Troubleshoots, repairs, and test injectors for Detroit diesel ("N" series) and Waukesha. Troubleshoots, repairs, and tests nozzles including hydraulic operated nozzles, pintle or needle. Provides diesel engine repair and adjustment services for speed sensing devices (magnetic/electrical pickup). Inspects repairs, and tests hydraulic systems/components including actuators.

MR-4405 Battle Force Intermediate Maintenance Activity (BFIMA) Inside Machinist

Performs intermediate level maintenance procedures on marine machinery and auxiliary systems and equipment components requiring the use of lathes, milling machines, grinders, power hacksaws, drill presses, portable machinery, hand tools, and measuring instruments. Demonstrates knowledge of intermediate level repair and maintenance standards, quality assurance specifications, and proper use of IMA industry machinery. Performs work processes as a Journeyman-level craftsman including basic lathe operations, turning shaft lengths, tapers, threading (V-form, acme and pipe threads), grinding and milling (with attachments), and eccentric machining utilizing dividing heads/indexing, rotary tables, and slotting (with attachments). Repairs and manufactures pump components including wearing rings, shafts and sleeves. Resleeves motor endbell housings, manufactures flanged couplings and mechanical seal housings. Machines large components and casings utilizing a gap lathe. Performs maintenance on valve components involving repair of valve seats, duplex strainers, Stellite valve seating surfaces, flange layout/phonogroove, and Leslie top cap assemblies. Manufactures steam valve seal rings (silver seals), valve stems, straight/step back rings, and large components/casings. Also performs portable machining operations.

MM-4540 Battle Force Intermediate Maintenance Activity (BFIMA) Valve Repair Technician

Performs intermediate-level maintenance procedures in inspection and repair of marine valves, valve manifolds and other steam system components. Demonstrates knowledge of intermediate-level repair procedures, repair and maintenance standards, quality assurance specifications, and proper use of IMA industrial machinery. Performs work as a Journeyman-level Craftsman including inspecting, repairing, and testing ball valves (1/2" to 12"), butterfly valves (1" to 12"), check valves (1/4" to 12"), gate valves (1/2" to 12"), and globe valves (1/2" to 12"). Inspects, repairs, and tests fuel oil, and air manifolds. Inspects, repairs, and tests regulating valves including steam reducing and temperature regulating valves; Marotta valve manifolds; air/gas and water regulators; and shop flow test/reducer/regulator valves. Inspects, repairs, and tests 2- and 4-way, and CHT plug valves. Inspects, repairs, and tests strainers including duplex, "y," fuel/lube oil, and simplex. Inspects, repairs, and tests specialty valves/breakers including silver seal valves and vacuum breakers. Inspects, repairs, sets, and tests system relief valves including steam, air, and freshwater/saltwater.

MM-4541 Battle Force Intermediate Maintenance Activity (BFIMA) Hydraulics Repair Technician

Performs intermediate-level maintenance procedures on hydraulic systems and components of propulsion machinery, auxiliary equipment and outside machinery. Demonstrates knowledge of intermediate-level repair procedures, repair and maintenance standards, quality assurance specifications, and proper use of IMA industrial machinery. Performs work as a Journeyman-level Craftsman including inspecting, repairing, and testing hydraulic pumps/motors including external/internal gear, herringbone, helical, spur, lobe, screw, vane, and radial/axial piston. Inspects, repairs, and tests hydraulic valve including fixed/variable restrictor, orifice check, compensated flow control, flow equalizer, priority, and simple/compound relief. Inspects, repairs, and tests counterbalance, pressure-controlled sequence, unloading, pilot- and diaphragm-controlled pressure reducing, rotary/sliding spool, poppet, four-way directional control, solenoid operated (servo) control, and power transfer and blocking valves. Inspects, repairs, and tests Lap hydraulic component parts. Inspects, repairs, and tests accumulators, actuators, antenna tilt system, crane hydraulics, and Ellison doors. Inspects, repairs and tests filter blocks and hydraulic cylinders, ramp and gate systems/components. Hydraulic fin stabilizers and presses, servo control valves, torpedo tube hydraulic systems, trash compactors, and controllable pitch propeller systems. Inspects, repairs, and tests pneumatic valves/components including air actuators and air reducing manifolds; counter measure launch valves; EMBT blow valves; Impulse cylinders; Air solenoid pilot and Air stop. Check, Air torpedo firing, and Air High Pressure (AHP) ball valves. Inspects, repairs, and tests Reliefs, MG/HOV pressurization/ventilation, and filters.

MM-4542 Battle Force Intermediate Maintenance Activity (BFIMA) Outside Machinist

Performs intermediate-level maintenance on all types of main propulsion systems, equipment, and auxiliary machinery. Provides technical assistance in troubleshooting and performance testing main propulsion systems, auxiliary and ship control systems, underway replenishment systems, and other machinery systems. Demonstrates knowledge of intermediate-level repair procedures, repair and maintenance standards, quality assurance specifications, and proper use of IMA industrial machinery. Performs work as a Journeyman-level Craftsman on sealing surfaces including flanged and threaded joints, line shaft bearing seals, mechanical seal-pumps, and steam turbine labyrinth. Inspects and replaces resilient mounts for auxiliary equipment, main engines, and diesel and turbine generators. Inspects, performs fit-up, and installs bearings including ball type, main engine, main line shaft journal, main line thrust, and roller type bearings. Inspects, repairs, and tests main propulsion machinery components, and reduction gears/gear cases. Aligns equipment including single/double coupling, optical laser and dial indicator/alignment computer, multi-couplings (train), and dial indicator/graph. Performs portable machining operations including drill/tap and thread repair and flange resurfacing. Repairs equipment including antenna tilt mechanisms (mechanical repair); brake drums; conveyors; elevators (assessment); elevators, rail alignment/replacement, safety linkage adjustment/repair, and SOT Level III assessment. Repairs hangar doors; mechanical deck equipment and expansion joints; shaft flexible couplings including torque, Sere-bath and Falk grid-type flexible couplings; sliding vertical padeyes; valve operators and reach rods; and lube or fuel oil purifiers. Repairs deballasting compressors and CHT aeration blowers. Repairs and replaces acoustical/lagging materials including foam rubber, fiberglass/preformed (spun), and cloth coverings. Maintains and repairs CRSN container, Shipboard including installing and replacing components/fasteners.

NOTE:

Naval Reservists can earn this NEC by satisfactorily completing the following procedures:

1. Application for NEC 4747 should be made to the Navy Broadcast Service (NBS) and must include:
 - a. A certificate of completion of a minimum of two years vocational-technical education in broadcast engineering.
 - b. Verification of two years current full-time experience in broadcast engineering.
 - c. A two week ACDUTRA at NBS for evaluation and familiarization with Navy equipment.
 - d. An ACDUTRA performance evaluation by a NBS activity.
2. Upon receipt of all items listed above, NBS will convene a board to consider application for NEC 4747. Upon determination that all requirements are satisfied, NBS will submit the appropriate documentation to EPMAC (Code 49) recommending award of the NEC.

IC-4749 Physical Security Equipment Maintenance Technician

Operates and performs preventive and corrective maintenance on remote sensor systems for physical security FFS-9V, FSS-10(V), Grass Valley CCTV subsystem, and Vindicator Digital monitoring systems.

HULL MAINTENANCE TECHNICIAN

HT-4911 Battle Force Intermediate Maintenance Activity (BFIMA) Shipfitter

Performs intermediate level maintenance procedures in the fabrication and installation of flat and/or complex metal forms. Utilizes industrial repair techniques while making templates, laying out, and fabricating hull structures and fittings using ferrous and non-ferrous materials. Demonstrates knowledge of intermediate level repair procedures, repair and maintenance standards, quality assurance specifications, and proper use of IMA industrial machinery. Performs work as a Journeyman-level Craftsman, including services such as: Bending-hot, -cold, hand forging and forming, and rolling plate; removal of outfittings and structural items, including accesses, using plasma arc, oxy-fuel gas and carbon arc cutting and back gouging; fabrication of outfittings and structural items, including deck gratings, deck plates, catwalks and platforms, equipment foundations, padeyes, rails and stanchions, and remote mechanical operator devices; performs repair and replacement of brows, ladders and accommodation ladders, closures above and below main deck, cradles, booms, davits, kingposts and outriggers, decks, bulkheads, shell plating and support structure, deck grating and plates, catwalks and platforms, structural cracks in ferrous and non-ferrous metals, and flexible cable remote operator devices. Shipfitter support service process skills include: Tack welding; asbestos collection sampling and removal; inspection, repair and replacement of passive countermeasure systems; repair of fiberglass/pre-formed (spun) and cloth coverings, as well as one step deck covering preparation and application; hull and superstructure maintenance, including epoxy repair, installation of sound dampening material, repair/replacement of rubber seals and gaskets: manufacturing of rubber/neoprene bumpers, stops, rollers, splash guards and spray shields, and performs plexiglas's forming services. Additionally, performs processes including: Cleaning and preservation of hulls; repair of fittings and components; small boat hull repairs to flotation foam, composite core construction (sandwich) and fiberglass repairs (minor). Also performs shipboard corrosion control maintenance and repairs including installation and replacement of components and fasteners and use of sprayed aluminum and powder coated components for corrosion control.

Qualification elements may be obtained through either formal or non-traditional training. The primary means of training will be led by journeyman-level craftsman supplemented by appropriate self-paced instruction, or through On-the-Job Training (OJT) consistent with Department of Labor journeyman licensing.

HT-4912 Battle Force Intermediate Maintenance Activity (BFIMA) Sheetmetal Worker

Demonstrates knowledge of intermediate-level repair procedures, repair and maintenance standards, quality assurance specifications, and proper use of IMA industrial machinery. Performs work as a Journeyman level Craftsman, including fabricating stainless steel and aluminum outfitting and furnishings, at a maximum size of 120" x .125", which includes ladderbacks, pipe flashing, funnels, safety guards, metal gaskets, drip pans, covers, racks, tables, and shelves. Installs stainless steel and aluminum outfitting and furnishings including pipe flashing, covers, racks, tables, and shelves. Installs transitions and ventilation screens. Repairs existing and/or installs bulkhead joiner doors, and engineering space vu-sonic doors. Fabricates and repairs/replaces strainer parts which includes salt water strainer baskets, and fuel and lube oil strainer inner and outer baskets. Performs Category F welding for fabrication and repair of sheetmetal items using the following processes: gas metal arc welding (MIG) spray, gas tungsten arc welding (GTAW), shielded metal arc welding (SMAW), and spot welding of ferrous metals. Also inspects, repairs, and replaces passive counter measure systems including radar absorbent material (type 3R, 14 and 16) and window film (type 12).

HT-4913 Battle Force Intermediate Maintenance Activity (BFIMA) Flex Hose Fabricator

Performs intermediate-level maintenance procedures in the fabrication of flexible hoses. Demonstrates knowledge of intermediate-level repair procedures, repair and maintenance standards, quality assurance specifications, and proper use of IMA industrial machinery. Performs work as a Journeyman-level Craftsman including conducting in-shop hot-water flushes of hoses. Conducts shop hydrostatic testing of hoses. Cuts and skives flexible hoses including machine-cutting up to 3 inch hoses, manually cutting up to 8 inch hoses, and skiving (machine) up to 2 ¼ inch hoses. Fabricates special purpose hoses including metal braided steam hoses and installing spiral reinforcement in non-collapsible hose. Inspects and tests flexible hose installation including visually inspecting flex hose to conform to PMS and NAVSEA requirements. Installs hose fittings including hose connections with band retained rings (multi-segments), segmented bolt together socket, solid socket fittings on single/multiple wire reinforced hose. Installs fittings including Super Gem fittings on wire jacket teflon hose. Manufactures and installs new and replacement hose tags.

HT-4935, 4942-4947 NDT Metal Specialists

NOTE: When an HT who is not currently certified in specific NDT technique is assigned to a NDT billet, certification must be established in accordance with NAVSEA 250-1500-1 and NSTM CH 074 V2 within three months of reporting on board. If the inspector/examiner fails to recertify, a NAVPERS 1221/1 recommending removal of the specific NEC shall be submitted by the Commanding Officer. The NEC removal must cite the reason for the individual's failure to certify/recertify and whether the member has performed to the extend of his/her ability. If an extension of recertification time beyond three months is considered appropriate, the member's Commanding Officer shall submit a request for a maximum 3-month extension to CHNAVPER (Pers-402). This request must discuss the reason for the extension. Subsequent to initial

certification or recertification the inspector/examiner must maintain certification when assigned to an NDT billet regardless of the duties to which assigned. NECs 4935, 4942-4947 require certification . Submit NAVPERS 1221/1 to EPMAC (Code 50) with a verification copy attached. Addressed requests for examiner certification to:

(Nuclear NEC HT-4947)	NAVSEA Test Examiner Qualification Program P.O. Box 79 ZAP 55A West Mifflin, PA 15122-0079

1. To be awarded upon successfully certifying as an inspector in the VT, MT, PT, and RT inspection methods for Nuclear applications. Certification examinations shall be administered in accordance with NAVSEA 250-1500-1. Applicant must hold HT 4935, have a minimum of five years experience as a HT-4943 and HT- 4944 and hold the rank of E7 or above (WAIVER MAY BE GRANTED FOR E-6 PERSONNEL PROVIDED ALL OTHER PREREQUISITES ARE MET AND WAIVER REQUEST IS SUBMITTED PER NAVSEA 250-1500-1). Qualification must be maintained as outlined in NAVSEA 250-1500-1 for nuclear application.

2. CNET has been requested to eliminate future training courses and support for this NEC no later than 1 July 1998 based on defined personnel requirements. No new NECs will be awarded.

HT-4952 Battle Force Intermediate Maintenance Activity (BFIMA) Pipefitter

Performs intermediate-level maintenance procedures in the fabrication and installation of piping. Utilizes industrial repair techniques. Demonstrates knowledge of intermediate level repair procedures, repair and maintenance standards, quality assurance specifications, and proper use of IMA industrial machinery. Performs work as a Journeyman-level Craftsman including cleaning drain systems utilizing hydroblast and mechanical methods Fabricates and/or installs flow restrictors; plastic, PVC and ABS piping and fittings; pressure and flow indicators; RISIC 2 and 3; temperature regulating and solenoid valves; thermometer wells; vacuum breakers; valve manifolds; ells; tees; wyes and strainers. Prepares and installs brazed piping joints Grades 3, 4, and 5; Class P3a-P3b piping system; and P3a special category piping. Prepares and installs mechanical piping joints including compression joints to 1.5 inch, flanged and flared joints, threaded joints up to 4 inch, and union joints. Prepares and installs welding piping joints including fit-up of butt and socket weld piping joints. Maintains/provides equipment for hydrostatic test services of hydro pumps and tests piping systems and components up to 10,000 PSI. Performs tack welding. Manufactures lagging pads; repairs and replaces acoustical/lagging materials including foam rubber, fiberglass/pre-formed (spun), cloth coverings, calcium silicate, epoxy coating, and polyimide. Maintains, troubleshoots, and repairs RHIB inventory including inflatable tube collars and RHIB Ready for Issue. Performs shipboard corrosion control (maintenance and repair) including installing and replacing components and fasteners.

NOTES:

1. NEC awarded to Naval Reserve personnel upon completion of courses awarding Component NECs 5309 and 53XX.
2. Candidates may enter EODMU Diver training with current rate but must laterally convert to a rating listed in MILPERSMAN 1220-100 within 12 months of assignment of NEC 5339.

5341 Master Diver

Qualified to supervise air or mixed gas dives using SCUBA and surface support diving equipment. Responsible to the Diving Officer for the safe conduct of diving operations. Proficient in operation of Navy approved underwater breathing equipment, support systems, and recompression chambers as well as in the diagnosis and treatment of diving injuries and illnesses, particularly those requiring recompression therapy. Familiar with operation and emergency procedures for diving systems. Possesses a working knowledge of mixing and analyzing gases including computation of diver gas requirements and consumptions, salvage theory and methods, submarine rescue procedures, towing, and underwater ship husbandry. Manages preventive and corrective maintenance on diving equipment, support systems, salvage machinery, handling systems, and submarine rescue systems. Manages and administers certification and quality assurance programs on Navy approved diving systems and equipment. Conducts training and requalification of divers attached to the command. Ensures divers are trained in emergency procedures. Recommends qualifications of diving supervisors. Possesses a comprehensive knowledge of the scope and application of all naval instructions and publications pertaining to diving. Ensures that proper logs and reports are maintained and submitted as required.

ENGINEERING AID

EA-5501 Construction Inspector

Reviews and analyzes project construction drawings and specifications and prepares a Construction Inspection Plan including a checklist of inspection points during critical phases of construction and installation. Verifies that all materials and/or equipment ordered meet applicable project specifications and certifies their conformance to these specifications upon receipt. Inspects all phases of construction and installation, including civil, architectural and structural, electrical and mechanical, for compliance with drawings, specifications and acceptable safe operating, installation, and construction practices. Schedules, coordinates, and observes tests on electrical and mechanical systems (includes operational tests on installed equipment) and arranges for quality control tests on such items as sub-base materials, aggregates and cementitious binders and on related mixes before, during and after installation. Prepares logs, records and reports on all inspections, and tests.

EA-5503 Advanced Engineering Aid

Employs the principles and techniques of foremanship. Solves mathematical problems commonly encountered by personnel in the Engineering Aid rating. Designs a twenty-four foot wide, one thousand eight hundred foot long segment of paved highway. Computes the optimum orientation for a single runway. Adjusts a quadrilateral triangulation system and computes the coordinates of each station. Estimates the material requirements for, plans and schedules the construction of, an advanced base administration building, using the Network Analysis System concept. Explores, identifies, classifies, and stabilizes soils. Identifies and tests bituminous paving mixes using the Marshall Method of mix design. Designs a concrete mix, tests mix ingredients, tests the wet mix, and performs both flexural and compressive strength tests upon the cured mix.

STEELWORKER

SW-6010 Advanced Steelworker

Employs the principles and techniques of foremanship, job planning, job control elements, and the responsibilities for safety. Works basic mathematical problems involving sheetmetal layout, strength of wire rope and fiber line. Repairs welding equipment, welds ferrous and nonferrous metals, wrinkle bends pipe, lays out, and prepares plate and pipe joints to be welded in the vertical and overhead positions. GMA/GTA welds nonferrous metals in the flat position. Knows the nomenclature of pontoons, butler buildings, steel towers, bolted steel tanks, and AM-2 aluminum airfield mats. Knows the procedures of assembly and disassembly of steel structures. Performs practical work in the field under supervision, estimates, and plans minor jobs as to material and personnel. Lays out and splices wire rope and applies wire rope attachment and lays out and fabricates sheetmetal parts and joins the parts by riveting, soldering, spotwelding, or seaming.

NOTES:

1. Personnel attached to the Reserve Naval Mobile Construction Battalion (RNMCB) are awarded NECs SW-6010 and SW-6021 based on the recommendation of individual Commanding Officer, RNMCB and approved by Commanding Officer, Naval Reserve Personnel Command (NRPC) in lieu of completing applicable course.
2. Reserve personnel may earn this NEC upon completion of the Personnel Readiness Capabilities Program (PRCP) equivalency skills listed in NAVFAC PUB P-458.

SW-6021 Safety Inspector

Organizes and directs the operation of the safety department. Investigates accidents, analyzes accidents and problem areas, and recommends methods to decrease frequency and/or eliminate accidents. Collects data to ascertain accident trends. Inspects project sites, grounds, buildings, and machinery to isolate hazards to life, health, and equipment. Conducts safety education campaigns by preparing and/or distributing literature, posters, charts, and displays. Organizes and directs safety committee. Directs placement of traffic control signs and devices.

AVIATION MAINTENANCE ADMINISTRATIONMAN

AZ-6301 Enhanced Comprehensive Asset Management Systems (ECAMS) Operator

Performs all operator, tape drive mount and dismount, hard drive, and data entry and retrieval functions. Performs networking functions between individual stations and the central data base, including analysis and correction of errors caused by software, hardware, or data entry. Creates archives, back-ups, tape builds, and data saves in support of deployments and detachment operations. Responsible for ADP security, password and user ID management. Transmits and receives data via floppy disk, data tape, modem, and other electronic means. Validates and corrects erroneous central data bases. Extracts data, formulates, and interprets management reports. Performs preventive maintenance on mini-type computer systems and associated equipment.

AVIATION WARFARE SYSTEMS OPERATOR

NOTE: APPLIES TO ALL AVIATION WARFARE SYSTEMS OPERATOR NECs

AW's are Naval Aircrewman (NAC) in a permanent flight status. They man sensor positions in fixed and rotary wing ASW aircraft based ashore and aboard aircraft carriers, escort vessels, and sea control ships, and serve as analysts in ASW Modules and Tactical Support Center (TSC). They also perform collateral duties in rescue and utility functions aboard multipurpose aircraft with an ASW mission. AW's who do not volunteer or are not qualified for flight must change their rating in accordance with MILPERSMAN 1220-020.

NOTES:

1. AW personnel perform in-flight duties in accordance with various aircrew positions as enumerated by the Chief of Naval Operations.
2. These NECs reflect a member's aircrew and rating standards and verify the member's entitlement to flight pay. They do not, however, authorize payment nor determine the category of payment.
3. Participation in the NAC program and the principles governing payment therefore are contained in BUPERSINST 1326.4. Compliance with this instruction is mandatory prior to submission of recommendations for these NECs.
4. Individuals should be recommended for assignment of these NECs as soon as respective qualifications are obtained.
5. Final qualification for NAC designator is not a prerequisite for assignment of these NECs. However, final aircrew qualification is a requirement for retention within the AW rating community.
6. Basic specialty NECs will be assigned upon satisfactory completion of fleet readiness squadron training. Regardless of NEC, AC designation may only be awarded after successful completion of operational standards prescribed by the Chief of Naval Operations.
7. These NECs are the primary means of identification for AW aircrew qualifications. Commands shall ensure submission of EPMAC 1221/2 to EPMAC Code 49 immediately upon qualification for these NECs. Request for removal of any of these NECs will be submitted to Pers-231 via EPMAC Code 49 for final adjudication. Special emphasis must be given to the accuracy of billet coding and individual identification to provide for the assignment and/or retention of aircrew within the enlisted personnel distribution system.

AW-7815 Tactical Helicopter Search and Rescue Aircrew Swimmer

Performs aviation rescue swimmer duties and search and rescue operations primarily from tactical rotary wing aircraft.

Source Rating: AW	Billet Paygrades: E4-E8	Personnel Paygrades: E3-E8

2. Waiver of course completion will be considered when specialized university training in photojournalism has been completed. Submit transcript from an accredited university or professional civilian photographic school to certify completion of a minimum of 15 semester hours or equivalent quarter hours of an electronic imaging curriculum with mandatory courses in image acquisition and editing, graphic design, software and hardware configurations, archiving, emerging technologies, networking, ethics in journalism, production of presentations. Include copies of course descriptions from university or civilian photographic school catalog. Submit waiver request form (EPMAC 1221/2) to Commanding Officer, EPMAC (Code 49), New Orleans, La 70159-7900 via CNO (N09C4).

NAVAL AIRCREWMAN

8201-8298 Naval Aircrewmembers

Personnel of various ratings assigned under a Distribution NEC of 82XX and 94XX by the Chief of Naval Personnel as a Naval Aircrewmembers are in a permanent flight status. They perform duties in the various aircrew positions determined by the Chief of Naval Operations in fixed and rotary wing aircraft based ashore and afloat. Members who are not volunteers for flying duty or who are not qualified for flight duties shall not retain these NECs.

NOTE:

1. These NECs reflect a member's aircrew qualifications and verify the member's entitlement to flight pay. They do not, however, authorize payment nor determine the category of payment.
2. Final qualification for AC designator is not a prerequisite for NEC assignment.
3. Basic specialty NECs will be assigned upon satisfactory completion of readiness squadron training or command training syllabi when formalized training is not required. Regardless of NEC, AC designation may only be awarded after successful completion of operational standards prescribed by the Chief of Naval Operations.
4. These NECs are the primary means of identification for aircrewmembers. Commands shall ensure submission of EPMAC 1221/2 to EPMAC via Pers-404E immediately upon qualification for the various NECs. Submit request for removal of these NECs to Pers-481 via EPMAC Code 49 for final adjudication. Special emphasis must be given to the accuracy of billet coding and individual identification to provide for the assignment and/or retention of aircrewmembers within the personnel distribution system.

8201 Naval Aircrewman Candidate

NOTES:

1. This NEC is assigned to those personnel undergoing flight indoctrination training and evaluation prior to completing a course of instruction leading to a crewmember NEC.
2. Members awarded this NEC must meet basic aircrew prerequisites, be in training for a valid Aircrew billet, and qualify for such training under the provisions of the MILPERSMAN, BUPERSINST 1326.4 Series, and TRANSMAN 9.12.
3. Members awarded this NEC who do not qualify for aircrew designation within 18 months as prescribed by OPNAVINST 3710.7 Series and BUPERSINST 1326.4 Series shall be discontinued from training.
4. This NEC will not be used to identify billets except within student UICs.
5. Commands must be authorized training appropriation from a Naval administrative command prior to initiating noncrewmember payment.

8202 Naval Aircrewman (Special Assignment)

NOTES:

1. Personnel assigned to this DNEC are assigned to BUPERS designated special billets with joint services, foreign services and special assignments where USN coding is not applicable.
2. This NEC is assigned as a distributive NEC only to personnel by BUPERS and billets may be coded only with prior BUPERS concurrence.
3. The use, applicability and retention of this NEC is of a restricted nature.
4. The goal is to prevent entry level naval aircrewmembers assigned to these billets from trying to earn aircrew designation without complying with the requirements established for all naval aircrewmembers.

NOTE: The medical standards established by NAVMEDCOMINST 1510.5 Series and the flight standards established by CNO must be met prior to award of this NEC.

HM-8402 Submarine Force Independent Duty Corpsman

Serves as the Medical Department Representative (MDR) aboard submarines and at various isolated duty stations ashore independent of a medical officer. Performs patient care and associated shipboard administrative and logistical duties. Performs diagnostic procedures, advanced first aid, basic life support, nursing procedures, minor surgery, basic clinical laboratory procedures and other routine and emergency health care. Conducts and directs preventive medicine and industrial hygiene surveillance programs. Familiar in the prevention and treatment of illness associated with the enclosed submarine environment, diving, and high-pressure conditions. Provides for health education to junior medical and nonmedical personnel. Performs all patient care and medical management functions set forth in Chapter 9, Manual of the Medical Department. Serves as the Radiation Health Officer (RHO) aboard submarines, and are trained in the medical aspects relative to personnel exposed to ionizing radiation. Directs and administers the Personnel Dosimetry and Radiation Health Programs. Maintains and compiles radiation exposure records and reports. Senior personnel assigned to shore and operational staffs provide medical assistance, training, and inspection services to operational forces and component units. Additionally, when assigned ashore they serve primarily as nonphysician health care provider at fixed medical treatment facilities (MTFs).

Source Rating: HM	Billet Paygrades: E5-E9	Personnel Paygrades: E5-E9
Course: Course Mandatory	CIN: B-300-0001 B-300-0005	CDP: 845E 475W
Sequence Code: 3	RBTR:	NR Ind: N
Component NEC:	Related NEC:	Open to Women: No
Primary Advisor: N931	Technical Advisor: BUMED 00HC	ECM: N13

NOTES:

1. Although NEC 8407 is not listed as a component NEC, personnel disqualified for submarines may at the discretion of the Enlisted Community Manager (ECM) be recoded to HM-8407.
2. Must continuously maintain Independent Duty Corpsman certifications to retain NEC. Recommendations for removal of NEC will be made by the Commanding Officer based on evaluation of the member's operational proficiency and professional performance in accordance with the provisions of OPNAVINST 6400.1 (series). Send 1221/2 to EPMAC (Code 49) via the ECM (10).

HM-8403 Fleet Marine Force Reconnaissance Independent Duty Corpsman

Provides medical and operational services for Fleet Marine Force Reconnaissance personnel engaged in direct action and reconnaissance operations independently of a medical officer. Performs patient care as well as associated operational administrative and logistical duties. Performs clinical diagnostics, advanced paramedical skills, advanced cardiac life support, nursing, basic anesthesia, basic dental exams and procedures and other routine and emergency medical health care procedures as required. Instructs and advises operational personnel in measures for prevention of illness and treatment of injuries associated with swimming, open and closed circuit SCUBA diving, military free fall and amphibious operations. Performs duties using open and closed circuit SCUBA in direct support of Fleet Marine Force Reconnaissance Units. Conducts underwater searches to include detailed ship-bottom searches. Inspects and maintains SCUBA and related equipment. Knows the laws of diving and gas physics and understands the theory and practice of decompression and the use of decompression tables. Performs duties as a hyperbaric chamber operator. Recognizes all types of illnesses associated with diving to include oxygen and carbon dioxide toxicity, nitrogen narcosis, type I and II decompression sickness and air gas embolism. Enters the chamber as the inside tender to care for patients suffering from decompression sickness as well as other conditions requiring hyperbaric treatment. Provides health care as a non-physician health care provider when assigned to fixed medical treatment facilities.

NOTES:

1. NEC is awarded upon completion of all of the following courses: 1) USMC Basic Reconnaissance, 2) USMC Combatant Divers, 3) Army Basic Airborne School, 4) USMC Special Amphibious Reconnaissance Corpsman Diving Medicine, 5) Joint Special Operations Forces Trauma Medic.
2. Recommendation for removal of NEC HM-8427 will be made by the member's Commanding Officer based on an evaluation of the individual's proficiency and professional performance in accordance with the provisions of OPNAVINST 6400.1 (series). Send 1221/2 to EPMAC (Code 49) via the ECM (10).
3. Must continuously maintain Dive/Jump qualifications to retain NEC.

HM-8432 Preventive Medicine Technician

Assists Medical Department Officers in the performance of Preventive Medicine and Occupational Health Programs for Navy and Marine Corps forces ashore and afloat. Performs inspections and surveys of food and food service facilities, berthing spaces, barber and beauty shops, child care

facilities, recreational facilities, swimming pools, potable water systems, solid waste and waste water disposal sites and systems, vehicles, and transport containers. Conducts bacteriological analysis of food, water, and ice samples. Conducts epidemiological investigations and reporting (Disease Alert Report), interviews and counsels sexually transmitted disease and other communicable disease patients and contacts, administers mass immunization programs and conducts nosocomial infection control programs. Applies statistical methods to human mortality, morbidity, and demographic studies. Conducts disease vector (insects, rodents, parasites, and other pests) control programs (surveys, identification, and pesticide application and other control measures). Is proficient in all aspects of field sanitation (water and food service sanitation, waste disposal, and vector control). Is proficient in medical and sanitary aspects of CBR defense. Under the supervision of occupational health professionals, assists in ensuring that work place environments are healthful, consistent with existing NAVOSH standards, through surveillance of the work place and medical surveillance of personnel exposed to work place hazards. Instructs medical and nonmedical personnel in preventive medicine, industrial hygiene, environmental health and occupational health matters.

CTI-9192-9216 Basic Linguists

Performs duties requiring proficiency in a foreign language including use of grammar, basic vocabulary, specialized technical and military vocabularies, and language working aids. Operate electronic equipment, computerized database, and analytical systems.

NOTES:

1. The Defense Language Proficiency Test for CTI rating.

(a) Performance Test Achieve a language proficiency standard of level 2 or higher in both reading and listening portions of the DLPT. Commencing with September 1998 advancement cycle 160 all candidates competing for E5 (CTI2) through E* (CTICS) must annually achieve a proficiency score of L2/R2 in the language which reflects their primary duty as determined by the members commanding officer. Minimum proficiency of L2/R2 must be attained within one year of the eligibility cut-off date for each advancement cycle to become eligible for advancement unless exempted by COMNAVSECGRU.

(b) Materials Test materials, instructions and grading criteria are held by designated command DLPT control officers or may be obtained as required from NETPDTTC, Code N321, 6490 Saufley Field Road, Pensacola, Fl. 32509-5237. BUPERS (N13) (CTI ECM) can be contacted for additional information on obtaining appropriate examinations.

2. NEC Award Criteria.

a. CTI OBTAINING A SECOND LANGUAGE NEC

For obtaining NECs 9192 thru 9198, 9202, 9207, 9208, and 9310 thru 9315 a score of L2/R2 or better is required on a Defense Language Proficiency Test (DLPT) in the NEC language or completion of the basic language course is required. For the other language NECs 9201, 9203, 9204, 9211 thru 9213, 9215 and 9216, the requisite Basic Language Courses (Phase I & II) must be completed.

Basic Language Courses

9192	01TH47W	9193	01JN30W
9194	01CA47W	9195	01BY47W
9196	01MY47W	9197	05SC16W
9198	01TA47W	9202	01TA47W
9207	01GM34W	9208	01AB47W
9310	01BU47W	9311	01GG47W
9312	01KU47W	9313	01PY47W
9314	01RQ47W	9315	01UK47W

3. CTI STRIKER OR CONVERTEE OBTAINING FIRST LANGUAGE NEC

For obtaining NECs 9192 thru 9198, 9202, 9207, 9208 and 9310 thru 9315, in addition to the Basic Language courses listed above, the applicant must complete the common block core course A-232-0029 (CDP 6329). For other language NECs 9201, 9203, 9204, 9209, 9211 thru 9213, 9215 and 9216, the Phase II language courses as listed in this manual (NAVPERS 18068) must be completed.

4. WAIVER REQUIREMENTS

Waivers for scores on a Defense Language Proficiency Test (DLPT) less than L2/R2 will not be routinely granted. However, waiver requests will be considered on a case by case basis in view of personnel requirements which may exist at time of request. Request should be submitted via EPMAC 1221/2 to EPMAC (Code 49), info N13.

NOTES:

1. Specialized training in counterinsurgency and SERE is only required for personnel assigned to potentially hostile environment.
2. Candidates for this NEC are screened for selection in accordance with Article 9.07 of the Enlisted Transfer Manual (NAVPER 15909).
3. NEC may also be earned by completing Air Force courses L3ABR81130-002 or L3ABR81132-001.
4. NEC awarded to Naval Reservists after completion of the Physical Security/Law Enforcement Phase I (Basic) and the Law Enforcement/Physical Security Annual Phase II (In-Service) Job Qualification Requirement (JQR) to be taught at the unit level during scheduled drill periods or at the gaining command.
5. This NEC applies to all non-MA personnel. Personnel holding NEC 9545 who later convert to MA will have the NEC administratively removed.

9549 Acquisition Logistics Specialist

Personnel assigned to acquisition-related billets perform critical functions within acquisition type activities (i.e., Integrated Logistics Support (ILS), Naval Air Training Management Support Activity (NATMSACT) as defined in DoD Directive 5000.1 and DoD Instruction 5000.2. These activities are responsible for acquisition systems development, acquisition, and logistic support or acquisition programs oversight, review, and acceptance of supplies and services under their cognizance. As such, they perform critical functions relating to systems design (reliability and maintainability), the development of acquisition/logistics plans and documents, system integration, logistics support analysis, provisioning, configuration, management, systems modifications, and site activation or program planning, oversight, and acceptance of supplies and services. Additionally, these individuals are responsible for various requirements related to the development and execution of budgets, acquisition and logistics support of programs.

NOTES:

1. In lieu of applicable course, personnel completing a regular duty assignment at a shore bulk facility may be recommended for this NEC. (For inactive duty select reserve (SELRES) personnel, the term regular duty assignment refers to drills, Annual Training (AT), and Inactive Duty Training and Travel (IDTT)). Specific OJT and experience must be documented in the EPMAC 1221/2 and sent to EPMAC (Code 49) via the CO, Navy Petroleum Office, Cameron Station, Alexandria, VA 22314. The CO, Navy Petroleum Office will provide final adjudication based upon personnel qualifications.
2. NEC normally assigned to active duty personnel in the ABF, MM, EN, HT, and UT ratings.
3. NEC normally assigned to inactive duty SELRES in the above ratings as well as in the following: AD, AE, BM, EM, MM, MR, BU, CE, CM, EO, and SW.
4. NEC normally assigned to active duty personnel in paygrade E5 through E7 per Chapter IV of NEC manual. NEC normally assigned to inactive duty SELRES in paygrades E4 through E8.

9562 Deep Submergence Vehicle Operator

Performs as an operator of a manned, self-propelled, noncombatant, deep submergence vehicle, including DSV's, DSRV's, Submarine NR-1, and USS DOLPHIN (AGSS 555). Operates all installed equipment and controls movements of vehicles in water column.

ET-9608 Radar Technician (AN/SPS-67(V)3)

Performs organizational and/or intermediate level maintenance on radar. Makes power output checks and minimum discernible signal tests. Checks standing wave ratio. Inspects and locates faulty waveguide and transmission line sections. Aligns RF, IF, and video amplifier circuits for malfunctions, diagnoses symptoms and isolates, localizes and replaces faulty components and parts to restore equipment to optimum operating condition.

CHAPTER V

PLANNING SERIES NECS

Planning NECs are approved for planning purposes only. These NECs may be used in conjunction with Navy Training Plans, in developing planned training courses, and other applicable long-range projects. Planning NECs may be written in manpower authorizations to project requirements and used for other planning purposes; however, they are not assigned to personnel.

NEC CODE	TITLE	BILLET PAGADES MIN - - MAX	READY FOR TRAINING DATE DD/MM/YY	POINT OF CONTACT
STG-0469	AN/SQQ-89(V) General Theory and Enhanced Maintenance Aids Level II Technician	E4-E9	01/03/01	PEO PMS411

ET-9613	Command High Bandwidth Data Link-Shipboard Terminal (CHBDL-ST) Maintenance Technician	E4-E6	01/01/98	NAVSEA

APPENDIX A

NEC PROPOSALS

A. INTRODUCTION

This Appendix instructions provides on how to prepare and submit recommendations for *establishing, deleting, or revising* Navy Enlisted Classification (NEC) Codes. NAVMAC processes all changes to the NEC system. Send recommendations via your chain of command and Primary Advisor (i.e., CNO N20, N43, N6, N869, N879, N889) to: Commanding Officer, Navy Manpower Analysis Center (Code 12) Naval Support Activity Memphis, Millington, TN 38054-5056 . Please note that although technical merit is a primary consideration in a NEC proposal, NEC actions will always be finalized in light of resources, programming, and personnel management implications.

B. METHODOLOGY FOR ESTABLISHING NECS

1. The *Navy Enlisted Occupational Classification System (NEOCS)* Board will review and decide upon all new NEC proposals. NAVMAC is responsible for Board administration and technical assistance in developing and implementing changes to the enlisted classification system. OPNAVINST 1223.1 series details NEOCS Board composition and responsibilities. The NEOCS Board is a standing board made up of members representing the following commands:

CNO N4J	CNO N6T	CNO N86
CNO N87	CNO N88	CNO N95
CNO N12	CNO N13	CNO N732
NPC-4	NPC-9	*NPC-3
CINCPACFLT	CINCLANTFLT	CNET
*COMNAVFACENCOM	*COMNAVSEASYSYSCOM	*COMNAVSUPSYSCOM
*COMNAVAIRSYSCOM	*COMNAVCOMTELCOM	*COMSPAWARSYSCOM
*BUMED (CNO N093)	*COMNAVSPECWARCOM	*COMNAVOCEANCOM
*COMNAVSECGRU	*NPC-64	*DIRSSPO
*CHINFO	*COMNEXCOM	*COMNAVCRUITCOM
*EPMAC	*MCPON	

*Board members as designated for attendance based on topic under review. Fleet commander representatives also provide inputs from fleet units on NEOCS Board issues.

2. *Criteria for Establishing NECs.* The NEOCS Board reviews all requests for new NECs considering following technical criteria:

- a. The NEC must not duplicate Occupational Standards.
- b. Skill identification needs must be long term.
- c. Skill identification must be applicable to both billets and people.
- d. The proposed NEC must not reflect routine fleet training.
- e. There must be a need to document the skill in the Enlisted Master Record (EMR).
- f. The skill identification must be necessary throughout the Navy.
- g. The proposed NEC must reflect workload required to support new equipment.

Note: A good rule when drafting or reviewing new NEC requests is to justify the Navy's need to identify a skill over five to ten years.

3. **NEC Establishment.**

a. *Rating Series, Special Series, Alphanumeric NECs.* Figure 1 identifies the information and format required to establish a Rating Series, Special Series, or Alphanumeric NEC. Submit recommendations to establish a NEC code 180 days before the date the NEC is to be awarded, i.e., 180 days before completion of initial course/factory training. Requests which involve mandatory training should address resource implications.

b. *Planning NECs.* Figure 1, paragraphs 1.a., c., g., j., p., q., and s. identify the information and format required to establish a Planning NEC. Submit recommendations to convert Planning NECs to Rating Series, Special Series, or Alphanumeric NECs 180 days before the date the NEC is to be awarded, (i.e., 180 days before completion of initial course/factory training).

Note: Submit requests for all NECs (including Planning NECs) via the Primary Advisor. See Chapter IV, NEC descriptions, for Primary Advisors. Copy to EPMAC (Code 49).

4. **NEC Cancellation.** All recommendations to cancel a NEC code must state the reason or rationale for cancellation and any required billet or personnel recoding action. Use standard Naval letter format when submitting requests for NEC cancellation.

5. **NEC Revision.** All recommendations to revise a NEC code must identify the proposed change and state the reason or rationale for the revision. Revisions which involve a change from OJT to course mandatory training also should address resource implications. Use standard Naval letter format when submitting requests for NEC revisions.

From: Name of activity submitting proposal
To: Commanding Officer, Navy Manpower Analysis Center (Code 12), NSA Memphis, Millington, TN 38054
Via: (1) Chain of command
(2) (See Chapter IV, NEC descriptions for Primary Advisor.)

Subj: PROPOSAL TO ESTABLISH A NAVY ENLISTED CLASSIFICATION (NEC) CODE

Ref: (a) NAVPERS 18068F, Volume II (NECs)
(b) List references that relate to this proposal

1. Request establishment of a new NEC code per reference (a).

a. NEC Code and title. Recommend a NEC code number and a title. Use the rate abbreviation and the first two digits of the proposed code and two Xs (e.g., ET-14XX).

b. Sequence Code. Recommend a sequence code for prioritizing the NEC on the Enlisted Master Record. See Chapter I paragraph C.4 for sequence code discussion.

c. Description. Describe the proposed NEC--identify the job to be done--particularly what skill the NEC provides that is not associated with a rating.

d. Source rating(s). List the rating(s) associated with the NEC (e.g., BM only, BM and SM, or BM, QM, SM, GM).

e. Component NEC. Identify any prerequisite skill(s) (Component NEC) that a member must have before earning the proposed NEC, if any.

f. Related NEC. Identify existing NEC(s) similar in scope to the proposed NEC (Related NEC), if any.

g. Training. List the training needed to earn the proposed NEC.

(1) Identify whether the NEC will be awarded through formal training or through OJT.

(2) State whether the course is new or on-going. If new, state the ready-for-training date.

(3) List CIN/CDP when a formal training course is required. If CIN/CDP is unknown, list training as "under development."

(4) List the length of training (in days).

(5) Any establishments, revisions etc., to CIN/CDP should be address to CNET.

Note: Unless otherwise directed, the originator of a request for establishment of a NEC is responsible for ensuring entry of proper course data into the Navy Integrated Training Resource and Administration System (NITRAS) as an integral part of the process.

h. Number of Billets. Identify the approximate number of billets requiring the NEC.

i. Personnel Paygrade. Identify the paygrade range for personnel who will hold the NEC (e.g., E-4 through E-5, E-6 through E-9).

j. Billet Paygrade. Identify the paygrade range for billet identified with this NEC (e.g., E-4 through E-5, E-6 through E-9).

k. Special Qualifications. Identify special qualifications associated with the NEC. For example, a security clearance, 20/20 vision, certification. For example, a security clearance, 20/20 vision, certification.

l. Skill Identification. Indicate whether the proposed skill (NEC) currently exists as part of a rating or another NEC.

m. Assignment (Open/Close). Indicate whether the proposed NEC is "Open" or "Closed" to Women.

n. Inactive Duty Select Reservists. Identify the applicable inactive duty Selected Reserve (SELRES) category for the NEC from the following listing and provide supporting rationale. Coordinate your recommendation with CNO (N951G).

Category "A"The NEC is attainable by SELRES, and is therefore assignable to SELRES personnel and manpower requirements with no restrictions. SELRES are able to complete training for the NEC within three years of normal inactive duty training cycles of 48 regular drills and two weeks Annual Training (AT) per year (Training Category (TRC) A). The NEC can be earned by the following means:

- Active Duty formal training courses that have not been modified or segmented into modules for SELRES applications,
- Segmented or modularized formal training courses that may be completed within three years of normal TRC A training cycles (Note 1),
- Specific civilian training/certification (Note 2), or
- On-the-job training (OJT) that can be completed with three years of normal TRC A training cycles (Note 2).

Additionally, NECs are assignable to SELRES manpower requirements if the formal courses of instruction that award the NEC will be modified to facilitate SELRES completion of all requirements for the NEC within three years of normal TRC A training cycles. The requirements for periodic recertification/requalification for the NEC cannot exceed a normal, annual TRC A training cycle (Note 1).

Category "R"

The NEC cannot normally be attained by SELRES within three years or normal TRC A training cycles however, is assignable with restrictions to SELRES manpower requirements if SELRES already holding a NEC in this category can maintain periodic recertification/requalification required for the NEC within a normal, annual TRC A training cycle (Note 3).

Category "N"

The NEC is not assignable to SELRES personnel or manpower requirements because periodic recertification/requalification for the NEC cannot be maintained by a SELRES during a normal, annual TRC A training cycle. Programming of SELRES manpower requirements with these NECs is not authorized (Note 4).

Note 1: A formal training course that awards the NEC or maintains recertification/requalification may be segmented into modules if recommended by COMNAVRESFOR (Code 04), approved by CNO (N7/CNET) and certified to be funded for segmentation by the appropriate OPNAV resource sponsor. If the Training Agent certifies that the training course will be on line within one year, assignment of the NR IND of A is allowed.

Note 2: NECs will be awarded to SELRES personnel upon completion of civilian training courses leading to the awarding of a certificate, diploma or license, and for the completion of OJT when a waiver of formal training requirements has been requested and obtained from the appropriate Training Agent.

Note 3: NAVMAC (Code 50) will limit the number of SELRES manpower requirements with "R" NECs in the Total Force Manpower Management System (TFMMS) to 125% of the number of SELRES personnel in inventory holding the NEC. Requirements will be reviewed annually to ensure they do not exceed this limit, and reprogramming actions directed where necessary.

Note 4: NAVMAC (Code 50) will direct management actions to eliminate or preclude establishment of SELRES manpower requirements with "N" NECs.

Note 5: COMNAVRESFOR will annually review and coordinate the update of all SELRES NEC categories with appropriate NEC Advisors.

- o. Directives. Identify special directives associated with the NEC, such as instructions or manuals.
- p. Justification. Explain the purpose of the proposed NEC. Be specific as possible.
- q. Platform/Equipment. Identify the new platform(s) and/or equipment the proposed NEC will support.
 1. Identify the "phase in" period for new platform(s), equipment, and training.
 2. Is the proposed NEC replacing an existing NEC? If yes:

- a) when is the old platform(s) or equipment no longer in service; and
 - b) identify the date the NEC being replaced may be deleted.
- r. Point of Contact. Identify the name and telephone number of a person knowledgeable about the proposed NEC.
- s. Occupation Standards. When requesting establishment of a Rating Series NEC, indicate whether the proposed NEC does or does not duplicate existing Occupational Standards for the rating involved, NAVPERS 18068F, Volume I identifies rating specific occupational standards.
- t. Workload Measurements. When requesting the establishment of a NEC, identify workload levels for each new equipment. The work may be generated either by watch station requirements, Planned Maintenance (PM), Corrective Maintenance (CM), or by other specific mission essential elements. The work could be supported by any combination of the preceding types of workload.

Notes:

1. Paragraph t. is applicable for NECs proposed to support new equipment.
2. Each new skill code shall be evaluated by CNO (N122) when the equipment or system is fully developed.

INSTRUCTIONS FOR COMPLETION OF EPMAC 1221/2

THE USE OF THIS FORM IS RESTRICTED TO NAVAL ACTIVITIES REPORTING NAVY ENLISTED CLASSIFICATION (NEC) DATA FOR INCLUSION INTO THE ENLISTED ASSIGNMENT INFORMATION SYSTEM.

FORWARD REQUEST TO:

USN/USNR(TAR)

COMMANDING OFFICER
EPMAC CODE 51
NEW ORLEANS LA 70159-7900

COMM: (504) 678-5491 FAX: (504) 678-1616
DSN: 678-5491 678-1616
EMAIL: EP51@EPMAC.NOLA.NAVY.MIL

USNR-R (SELRES)

COMMANDING OFFICER
NAVAL RESERVE PERSONNEL CENTER CODE 201E
NEW ORLEANS LA 70149-7800

COMM: (504) 678-1859 FAX: (504) 678-5470
DSN: 678-1859 678-5470
EMAIL: WOELKEH@NRPC.NOLA.NAVY.MIL

NOTE: (1) USNR MUST GO "VIA" APPROPRIATE NAVAL RESERVE READINESS COMMAND/CENTER (FOR SURFACE ACTIVITIES) AND NAVAL RESERVE ACTIVITIES (NRA FOR AVIATION ACTIVITIES). USNR-R CLASSIFICATION COORDINATORS WILL COMPLETE BLOCK 14 PRIOR TO FORWARDING TO NAVAL RESERVE PERSONNEL CENTER (NRPC).

BLOCK #

1 - 3

MEMBER INFORMATION:
SSN - SELF EXPLANATORY.
NAME - LAST NAME, FIRST NAME, MIDDLE INITIAL.
RATE/RANK - EXAMPLE: PN2, ATC

NOTE: (2) IF SUBMITTING A REQUEST FOR THE SAME NEC BUT MORE THAN ONE MEMBER, ENTER "SEE ATTACHED" ON BLOCKS 1 AND 2, AND ATTACH A LIST WITH THE RATE, NAME & SSNs OF THE MEMBERS TO THE EPMAC 1221/2.

4 **UIC** - COMMAND UNIT IDENTIFICATION CODE (UIC) TO WHICH MEMBER IS PERMANENTLY ATTACHED

5 **COMPONENT** - CHECK APPROPRIATE BOX

6 **RESERVE CLASSIFICATION** - MEMBERS OF USN LEAVE THIS BLANK. MEMBERS OF THE USNR CHECK APPROPRIATE BOX

7 **NEC ACTION REQUEST** - CHECK THE APPROPRIATE BOX. ONLY IDENTICAL TRANSACTIONS MAY BE REPORTED ON A SINGLE FORM. WHEN MULTIPLE ACTIONS ARE BEING RECOMMENDED FOR DIFFERENT REASONS, SEPARATE FORMS MUST BE SUBMITTED.

8 **NAVY ENLISTED CLASSIFICATION (NEC)** - THE NEC(S) FOR WHICH ACTION IS REQUESTED.

9 **AMPLIFYING REMARKS** - A BRIEF STATEMENT EXPLAINING WHY THE REQUEST IS BEING SUBMITTED. FOR "COI COMPLETION" NECS ANNOTATE THE COURSE IDENTIFICATION NUMBER THE MEMBER COMPLETED, AND ALSO INCLUDE SUPPORTING DOCUMENTATION WITH THE EPMAC 1221/2 IN ORDER TO EXPEDITE YOUR REQUEST.

10 **SIGNATURE OF CERTIFYING OFFICER** - AUTHORITY TO CERTIFY ROUTINE AWARD OF NECS MAY BE DELEGATED BY THE COMMANDING OFFICER OR OFFICER IN CHARGE. HOWEVER, NEC REMOVALS **MUST** BE CERTIFIED BY THE COMMANDING OFFICER OR OFFICER IN CHARGE.

11 **DATE** - DATE SIGNED BY CERTIFYING OFFICER

12 **DSN PHONE** - SELF EXPLANATORY

13 **COMMERCIAL PHONE** - SELF EXPLANATORY

14 **EMAIL ADDRESS** - SELF EXPLANATORY (FOR FASTER RETURN OF NEC REQUEST)

15 **DSN FAX** - SELF EXPLANATORY (FOR FASTER RETURN OF NEC REQUEST)

16 **COMMERCIAL FAX** - SELF EXPLANATORY (FOR FASTER RETURN OF NEC REQUEST)

17 **FIRST ENDORSEMENT** - THIS BLOCK IS TO BE USED ONLY BY THE "VIA" ADDRESSEE TO ANNOTATE THEIR RECOMMENDATION FOR APPROVAL/DISAPPROVAL OF THE NEC REQUEST. FOR NEC CHANGE REQUESTS OF USNR-R (SELRES) PERSONNEL THIS BLOCK WILL BE USED BY THE CLASSIFICATION COORDINATORS. EPMAC/NRPC ARE THE FINAL APPROVING AUTHORITY FOR NEC REQUESTS.

NOTE: (3) EFFECTIVE DATE ON THE "APPROVED" BLOCK IS THE DATE THE NEC WAS AWARDED/REMOVED. ANNOTATE THE ENLISTED DISTRIBUTION VERIFICATION REPORT (EDVR) AND THE SERVICE RECORD PAGE 4 WITH THIS DATE.

NOTE: (4) ACTIVE - ALL NEC CHANGES SHOULD APPEAR ON YOUR NEXT COMMAND EDVR.
RESERVE - ALLOW 7 TO 10 DAYS FOR CHANGES TO APPEAR ON YOU COMMAND RUAD.

NOTE: (5) THIS FORM IS NOT TO BE USED FOR DISTRIBUTION NEC (DNEC) CHANGE PROPOSALS. FOR DNEC CHANGES, REFER TO THE DMRSMAN (EPMAC DOCUMENT 1080#1 UM-02).

PRIVACY ACT STATEMENT FOR EPMAC 1221/2 "NAVY ENLISTED CLASSIFICATION (NEC) CHANGE REQUEST"

THIS STATEMENT IS PROVIDED IN COMPLIANCE WITH THE PROVISIONS OF THE PRIVACY ACT OF 1974 (PL 93-579) WHICH REQUIRES THAT FEDERAL AGENCIES MUST INFORM INDIVIDUALS WHO ARE REQUESTED TO FURNISH INFORMATION ABOUT THEMSELVES AS TO THE FOLLOWING FACTS CONCERNING THE INFORMATION REQUESTED.

- AUTHORITY:** TITLE 10 AND 37 U.S.C.
- PRINCIPAL PURPOSE(S):** TO ACCESS MEMBER DATA ON THE ENLISTED ASSIGNMENT INFORMATION SYSTEM.
- ROUTINE USE(S):** TO PROCESS AWARD(S), REMOVAL(S) AND WAIVER(S) AS REQUESTED ON THE EPMAC 1221/2.
- MANDATORY OR VOLUNTARY DISCLOSURE:** VOLUNTARY. IF THE MEMBER DOES NOT PROVIDE SOCIAL SECURITY NUMBER THE NEC REQUEST WILL **NOT** BE PROCESSED.
